commercial buildings to create a total of 115 one-bedroom apartments as affordable senior housing, including a density bonus of 35% in accordance with State law. On-site amenities for residents are proposed to include interior courtyards, a 440-sq.ft. library/game room, and a 594-sq.ft. classroom. Gross building area is 84,352 square-feet on a 2.18-acre developed site, with on-site improvements proposed to include handicap-accessible entrances and ramps, new landscaping, re-stripe the existing parking lot with 99 spaces, and a new refuse enclosure. Proposed architectural treatment of the existing buildings include re-painting the exterior on all sides, new doors and windows, exterior lighting, and 6'0" x 1'0" decorative balconies. Off-site improvements are proposed to include decorative sidewalk and planters along the project site's frontage on Ninth Street, and new angled on-street public parking along the east side of South B Street (between Eighth and Ninth Streets) to include new curbs, sidewalk, planters, trees and landscaping. Project site is located at 300 West Ninth Street, within the Central Business District zone. The project is exempt from environmental review pursuant to Section 15332 of the California Environmental Quality Act (CEQA) Guidelines. Filed by Albert Group Architects on behalf of the property owner Press-Courier Lofts LLC, 12210 Nebraska Ave., Los Angeles, CA 90025. PROJECT PLANNER: BRIAN FOOTE ACTION:

2. **PLANNING AND ZONING PERMIT NOS. 13-580-02 (Zone Text Amendment), 13-620-01 (General Plan Amendment), and 13-570-02 (Zone Change) to:** 1) establish the All-Affordable Housing Opportunity Program (AAHOP) with implementing regulations and establish -AH additive zone designation, 2) amend AAHOP section within the 2006-2014 Housing Element (2030 General Plan, Chapter 8) and amend the AAHOP Supplement II site list with 2 additions, 1 deletion, and corrections, and 3) add -AH designation to existing zoning for AAHOP parcels. These actions implement 2006-2014 Housing Element, Program 3, as required by State Law. The -AH additive does not change uses and development standards under existing zoning: the -AH additive allows for 18, 20, or 24 units per acre density, depending on the site, only if the entire housing development is affordable to very low and low income households. The cumulative development opportunity of -AH parcels allows the City to exceed the remaining very low and low income affordable housing 2006-2014 planning target. The certified 2030 General Plan Final Environmental Impact Report examined the potential impacts associated with the proposed action. Filed by Planning Division, 214 South C Street, Oxnard, CA 93030.
