SUBJECT: Setting the City Council's 2021-2025 Five-Year Priorities. (0/45/120)

RECOMMENDATION

That the City Council set its 2021 – 2025 Five-Year Priorities, which will be adopted at a future City Council meeting.

Please click the following link to view the required Measure M pre-recorded presentation video: <https://youtu.be/bVhv9PYwJAA>

BACKGROUND

In 2016 the City Council adopted its 2016-2020 five-year priorities, which focused on the following four categories:

- Quality of Life
- Organizational Effectiveness
- Economic Development
- Infrastructure and Natural Resources

DISCUSSION

Staff has been collecting public input since 2019 about the many priorities that are important across our community. Based on that input we formulated the proposed Measure E investments, as presented to the Council and the public in September, 2020.

On January 26, 2021, each City Council Committee reviewed the four categories, and concurred with staff recommendation to add "public safety" as a standalone, fifth category.

At the *Finance & Governance Committee*, Council comments included:

1. Adequate training for staff
2. Proper span of control in supervision
3. Investment in disaster preparedness
4. Adequate staffing for proper financial management
5. Improving accountability

At the *Community Services, Public Safety, Housing & Economic Development Committee*, Council comments included:

1. Life guards at the beach

2. Apprenticeship programs in the trades
3. Economic gardening
4. Adequate public safety staffing
5. Police storefronts

At the *Public Works and Transportation Committee*, Council comments included:

1. Cleaning up the City's gateways
2. Improving street light lumens where needed
3. Illegal dumping
4. Completing the levies
5. Harbor water quality
6. Repairing/renovating utility facilities
7. Water security
8. Security cameras
9. Cyber security

Councilmembers also asked about the potential fallout of the recent voter-approved Measure N. This issue will be discussed as part of the budget process in the spring.

After the Committee meetings, the City issued a follow-up public survey, which ran for 14 days and received 1,300 responses, asking the community to rank the various priorities, to help the City Council set its Five-Year Priorities.

The results of the survey are attached along with this report's presentation.

Staff strongly recommends that the next five-year set of priorities should be focused on turning city hall into a high functioning organization across the board. We need to improve the organization's fundamentals, especially in areas with organizational weaknesses, restore the levels of services needed for the community, and aspire to add a few major investments to make the city a better place for all.

Setting priorities for a five-year period should focus on five years. However it should be done with an eye toward preparing the city for the major challenges coming in the very near future beyond the next five years.

Proposed Framework

1. Public review of 2016-2020 Five-Year Priorities at Council meeting (January); COMPLETED
2. Hold public, focused discussions at each Council Committee (January); COMPLETED
3. Update Community Survey (February); COMPLETED
4. Hold public, Special City Council Workshop to set the 2021-2025 five-year priorities (February 25, 2021)
5. Adopt 2021-2025 five-year priorities at public Council meeting (March)

Food for Thought - priorities are not a laundry list of wishes and desires

1. The Council priorities should **focus on a five-year window**, making aspirational choices that are achievable and measurable.
2. The priorities should be **matched with sufficient resources in the budget**-- existing and new.
3. The priorities should **include metrics in the budget**.
4. The priorities should include a **timeline for progress**, in the budget, within the five years.
5. The Council Priorities should **align with Measure E's restorations and investments**.
6. The priorities and the Measure E choices will **inform and should be reflected in the ensuing annual budgets**.

Again, we need to focus on making the organization stronger over the next five years so that Oxnard can be prepared for

and able to meet the significant changes coming in the very near future, especially in the areas of sweeping technological advancements and water scarcity.

Staff proposes that the sum of priorities across the five categories be limited to twenty-five (25).

STRATEGIC PRIORITIES

This agenda item supports the Quality of Life strategy. The purpose of the Quality of Life strategy is to build relationships and create opportunities within the community for safe and vibrant neighborhoods, which will showcase the promising future of Oxnard.

This agenda item supports the Organizational Effectiveness strategy. The purpose of the Organizational Effectiveness strategy is to strengthen and stabilize the organizational foundation of the City in the areas of Finance, Information Technology, and Human Resources, and to improve workforce quality while increasing transparency to the public.

This agenda item supports the Economic Development strategy. The purpose of the Economic Development strategy is to develop and enhance Oxnard's business climate, promote the City's fiscal health, and support economic growth in a manner consistent with the City's unique character.

This agenda item supports the Infrastructure and Natural Resources strategy. The purpose of the Infrastructure and Natural Resources strategy is to establish, preserve and improve our infrastructure and natural resources through effective planning, prioritization, and efficient use of available funding.

FINANCIAL IMPACT

There is no financial impact.

COMMITTEE OUTCOME

On January 26, 2021, each City Council Committee reviewed the four categories, and concurred with staff recommendation to add "public safety" as a standalone, fifth category.

My car is in really poor conditions due to the streets low maintenance, most of the streets in this city are due for a complete do over, or re-build!!!! Also, city needs a lot more attractions such as bigger movie theaters and stop all the rent increase. Salary still the same. I'm about to move away from here because the life quality here is extremely low and very unsafe. Cops are only there when you don't need them, giving out tickets to hard working people instead, they should be patrolling the areas where gang members are around, it's not nice to see gangsters walking like they own the world without any cops around them and when cops arrive there's nothing going on, that wouldn't	2/12/2021 1:50 AM

353	I think we need to think Big Picture and recognize our strengths. Big picture is looking at the city holistically ... rather than just one area. Strengths include the quantity of people and families, local nature, our farm and local food economy, our art and music scene and our Mexican-American, farmers and beach city heritage. A way to attract more business (from within Oxnard and outside Oxnard) is stop barriers to business and create an environment where people want to come. We are really missing attractions for families and young adults here. For example, we have at least 4 major corridors in our city where the zocalo idea (with farmers markets, free summer concerts/movies, food trucks, carshows, festivals, paint and sip parties, etc) can really take-off: RiverPark, Downtown, South Oxnard, and the Harbor. We try to do so much to attract people from outside the city, but if we focused on engaging Oxnard residents to spend \$ here, we would attract more business from outside as well. Additionally, the city is congested and not easily connected. In addition to increased bus service, we need to expand our transportation options, ie safe biking/walking corridors between zocalos, beaches, harbors, parks etc. and perhaps a fun trolley like in Camarillo, that could connect zocalos timely and consistently. It could guide people from RiverPark, for example to other zocalos for city wide activities. Riverpark is connected easily to highway 101, but downtown could easily be an attraction with expanded metrolink service and a safe an attractive walking route to downtown from the transportation center.	2/9/2021 9:44 PM

377	I have lived in the city of Oxnard, South Oxnard specifically, for almost 45 years. I have become increasingly frustrated over the years with the city's overlooking and seemingly disregard for south Oxnard! The residents on the south side of town have money to spend and we are tired of having to drive to north Oxnard, Ventura and Camarillo to do any quality shopping. I remember the days when we had Mervyns, JC Penny, bookstores etc on this end of town. Now, south side is littered with dollar stores and Latin shopping options. I do shop at those establishments, but don't feel I should have to go to Walmart (not a fan) to get essentials and that store is the only option on this side of town, and not much of one in my opinion. There aren't any stores or restaurants of quality on this end of town and I'm tired of it feeling like the city planners are trying to turn this side of town into that for only lower income residents. Treat the city as a whole, like you would your own body. You don't treat the lungs without regard for the heart, as you could damage one while trying to heal the other. You need BOTH to survive, and south Oxnard is feeling very marginalized.	2/9/2021 1:56 PM

650	We do not want big business in Oxnard! Let's focus on supporting our small businesses: street vendors and corner markets especially! 651	Begin a conversation with the County Department of Airports, Oxnard Chamber, Mexican Consulate and state assembly and senate members. Look to utilizing the Oxnard Airport as a new port of entry which can serve the vibrant Latino community here by providing direct air service to key cities, such as Guadalajara, Michoacan, Mexico City, Juanajuato, etc. Canvass interest for airlines such as Interjet, Viva Aerobus and Aeromexico, which can provide regional jet service. Consider a runway expansion across Victoria to accommodate A-320/737 aircraft and upgrade the terminal. This specialized air service would help travelers save on long distance drives to LAX and would not take business from Burbank or Santa Barbara. We really need to take risks like these for an Oxnard with international appeal and local growth.	2/3/2021 11:19 AM

Please consider making a portion of the beaches an off leash dog zone. Not all people are able to bear children and some of us consider our dogs family and it is a shame that we are not able to take them with us on beach days. 720	We need to create a thriving downtown and an arts hub in Oxnard. There is so much potential, but unfortunately there has been a lack of vision so far. Let's open the Teatro on the blvd, bring in high quality independently owned restaurants (no chains), A Zocalo is a great idea. Workforce development is best suited to the County and State.	2/3/2021 9:04 AM

737	please revitalize south Oxnard,it has been neglected for many years. There are no good shops or places to eat in that area. During this pandemic hardly any decent restaurants deliver food to south Oxnard area because it is too far so we need some good local restaurants in that area.	2/2/2021 8:48 PM
738	South Oxnard needs a lot of attention. The residents feel forgotten. Saviers looks horrible!	2/2/2021 8:35 PM
739	We should focus our revenue and budget to rebuilding and acquiring new parks along with playing fields for our youth. With the expansion of home building it only makes sense and can bring revenue through sports tournament. Other cities are afraid to play in Oxnard and it is embarrassing that our field are field with transients and are filthy	2/2/2021 8:15 PM

Homelessness, horribly landscaped/dead medians, boarded up vacant buildings etc. the list is endless. We pay our fair share of taxes and deserve the nice quality of life that North Oxnard residents enjoy!!	2/2/2021 6:16 PM
751	No one wants to go to downtown Oxnard! Focus on the beach for tourism and night life. First generation immigrant families feel blessed to be near the ocean. When out of town family or friends come to us in Oxnard we go to the beach. That's what makes us special. I don't want to be in a downtown for anything with the nature beauty of the ocean as an option. Oxnard needs to capitalized on it!	2/2/2021 5:55 PM

103	We cannot leave anyone out when seeking to improve our community. The homeless in our city need adequate resources to thrive in the ways they desire, our youth (especially in the more working-class southside) need programs to aid in unlocking their potential. The arts need more support in the city, which enrich those of all ages and backgrounds. The City of Oxnard needs also to be a more inclusive and welcoming community for those in groups such as the LGBTQ+, Black, Asian/Pacific Islander communities that can feel overshadowed and forgotten. Forgetting about these valuable members of our community will eventually cause them to leave to other cities where they feel more welcome and valued.	2/16/2021 10:10 PM

157	On ameliorating the issue of homelessness, I often hear that public restrooms can be difficult to access for homeless people; I imagine this contributes to a vicious cycle, as one objection people tend to have to the homeless using their facilities is cleanliness, or lack thereof, of homeless individuals. Again, youth programs, senior services and multi-center services can all be under one roof, with a commitment by the city. Further, addressing homelessness should NOT be on the above list. This is an issue that needs to continually be on the city's agenda! To rank homelessness with services that provide growth and community is not only wrong but shows the narrow mindset and limitations of development. 369	Seniors need a place to safely hang out as they have Ben deprived of all social activities	2/8/2021 9:19 AM
370	Please do not provide apartments for the homeless in clusters. If you provide apartments for them, at least spread them out throughout the City. Housing them all together will turn into a neighborhood problem. Criminal activities will rise and rat infestation will affect neglected and unkempt apartment clusters. Many need mental health rehabilitation or drug and/or alcohol rehabilitation before they should be given permanent housing. Job retraining may also help but please do not just automatically give them housing without first tending to their root cause. Mostly depression, alcoholism or drugs.	2/8/2021 9:04 AM
371	Main focus is on youth to educate generation whose parents are working, youth don't have enough opportunities outside school.	2/8/2021 8:49 AM

387	I don't want a homeless problem. Ship them to Thousand Oaks. Why are they here in Oxnard? Offer them jobs sweeping the streets, trash cleanup, graffiti removal.	2/7/2021 3:05 PM
388	We need to keep our youth engaged in activities....and seniors engaged as well.	2/7/2021 2:46 PM
389	Youth programs should take priority in order to get the young teens with busy parents off the streets and out of gangs	2/7/2021 2:05 PM
390	Oxnard must invest in our youth. We have no accessible programs for our South Oxnard youth. For too long the city has been unbalanced in terms of resources being allotted toward the North side of Oxnard and newer communities. Building, creating, and investing in youth program in South Oxnard will not only improve the quality of life of our youth, but will also benefit the community and city as a whole.	2/7/2021 12:10 PM
391	Was difficult to rate these because for example helping homeless people is so important but I also wanted to prioritize other programs. I don't think just one of these should be prioritized.	2/7/2021 10:55 AM
392	It is my hope that city officials take this survey seriously.	2/7/2021 10:28 AM

398	Quality of life has decreased significantly with so many homeless. Large vacant lots are looking more like trash centers in south Oxnard. Please require business owners to clean their properties and make improvements. City of Oxnard City Corps is a hidden gem because they do so much for the city and it's a youth program.	2/7/2021 8:25 AM
399	Summer programs for all youths not just low income. Add a community pool for south Oxnard residents. The colonia pool is too far and very limited. Add more activities like a bowling alley and more appealing parks like Santa Barbara's Kids World park so we don't have to go to other cities to spend our money. Make or at least brightly mark bike paths to the beach and downtown. Work with Oxnard and Port Hueneme school districts so that the south Oxnard residents can have access to the track fields and soccer fields after school hours to run and practice sports in our south Oxnard community.	2/7/2021 7:33 AM
400	The homeless in Oxnard are completely out of control. They pitch tents all around the city, and are a danger to regular citizens. The vast majority of them are on hardcore drugs, and you never know if they are going to ask for change, start a fire, or assault you. I would propose a giant barracks-style housing for them outside of high population areas. I believe this would be cheaper than letting them camp in our parks and drain the cities infrastructure.	2/7/2021 7:32 AM

What is the point of "representing" a city that in reality you don't really care much about. Is it just to put something else on the resume?	2/4/2021 11:26 PM
485	I want there to be more services for unhoused people (shelters, food, support, etc.), but not more punitive measures taken against them. I ranked this issue low because I feel like, historically, the city has taken a more punishment-centric approach which centers the comfort of affluent people over the immediate needs of people who don't have housing, but, if that could change, this would jump to number 1.	2/4/2021 10:46 PM

The arts are first and foremost a hub of culture and life for the city. I would also lobby and ask to boost funding for The Oxnard Performing Arts Center, as well as maintain the Carnegie Art Museum and allow them to run their organization as a nonprofit. 498	homelessness is a huge problem, but how exactly will we be "addressing" it? with more police, to further criminalize and simply bus them out or move them to different areas? or with actual resources, shelters, and drug prevention programs? i know there's no simple answer, but most will throw the homeless to the side and not address the REAL issue: gentrification leading to homelessness, drug abuse, alcoholism, mental illness. have you ever seen that big guy walking around that's really dirty and has shaggy hair? i've seen him all over town, and he smells terrible, but he apparently used to work at Santa Clara School. he's the prime example of someone who could benefit from actual help, not criminalization.	2/4/2021 2:28 PM

558	The Library provides hundreds of programs for all ages. With cuts to Library staff over the years many programs can no longer be offered. The Library has NO General fund money for programming which includes: all story times, Summer Reading programs, public performances etc. All youth and senior programming funds are provided by the Library Foundation. The last few years the Library Foundation has not been able to provide much funding and programming has suffered. Reading readiness and cultural programming at the Library should be a focus and support of Council with earmarked funding for this in addition to the current Library budget. These people don't do their job and don't seem to know what they can and can't do. They just ignore problems and go after people that can afford to fix their property or take pride in their properties. So unfair. That is a huge quality of life issue for tax paying home owners.	2/3/2021 10:10 AM
599	Homeless is a major issue in the city. It should not be addressed by building housing and more programs, because we will just attract the homeless from other areas (many cities already send their homeless to our city, the Sheriff's Department routinely drops their homeless off). We should have effective enforcement to follow up with people who refuse the services already in place, to encourage them to seek other locations to live where laws and enforcement are friendlier to vagrancy.	2/3/2021 10:08 AM

604	With homeless running around the whole city no one feels safe and that population makes the city as a whole feel negative, and not a place to live so all resources need to be allocated to end this issue, which should not be amplified by the creation of more housing. Many citizens worry providing more programs for homeless will bring a larger population to the City. After the homeless issues, cultural arts need to be restored by art museum and arts academy. Youth should be prioritized over seniors as we can lose children to crime if we do not change and offer positive avenues of growth.	2/3/2021 10:00 AM

638	This is a radical idea, but if you create a vibrant, thriving community where residents feel supported, have plenty of opportunities for expression and creative outlets, and robust senior and youth programs, you will address other issues such as homelessness, substance abuse, and reliance on services. It will not solve these problems, but it is part of the solution. Homeless and resources are County/State issues as well- the City has limited options in dealing with crisis- Focus what you can fix, and there will probably be some positive unintended/intended consequences. PS- the way to solve homelessness (that the City can do) is to build homes- not shelters- homes with zero barriers to entry.	2/3/2021 9:04 AM

149	Do not allow the homeless to build lean to's and stay in sites that are wooded such as the ones along Harbor Blvd. Many fires have been started along there and so far they have been able to put them out before spreading to surrounding homes. Keeping the areas cut down like recent endeavors is a positive movement towards keeping the homeless out of there. I am all for helping the homeless but their needs to be designated areas for them with showers, counseling, medical, etc. but when caught living outside of these areas their tents need to be shut down as it becomes a fire hazard to all of us.	2/14/2021 8:21 AM

227	While all of these are important I think perhaps the focus and process is a bit too broad. While I love having community police programs the focus probably needs to be refined a bit with a look at the needs of the various neighborhood. Neighborhoods with more teenagers may need a different approach than a neighborhood with another age group. Community policing should also rotate so that a person with experience in one neighborhood can introduce other officers as well so the relationship with the police force a a whole was improved. This should also be used as an opportunity to address cultural and socioeconomic differences, needs and resources. If a police officer is not comfortable or trained in dealing with issue prevalent in a particular neighborhood that should be noted in a proactive path to training and assignments. For example - dealing with an aging community, domestic violence, gang activity or youth issues are all very different and one one one introductions through community policing to more police and and more subgroups may build bridges and highlight opportunities for improvement before a serious call for service.	2/11/2021 2:29 PM

241	Where is Animal Control in all of this? Animal control is a public safety issue. Animals in traffic cause a hazard, roaming animals can sometimes be aggressive and we have had several incidents of bites and being chased recently. The fact that the city does a poor job in managing this aspect also places the burden on the city residents to act and intervein in situations that they are not trained for or that they lack proper equipment for and that also places them in danger. Our city has a HUGE problem with loose animals and it will only continue to grow if we do not address it head on. Animal control services are desperately lacking. We are the largest city in Ventura County, we contribute the highest number of strays to VCAS and we have the fewest available resources. If we, as a city, are unable to fund a proper Animal Control Department with adequate number staff commiserate to the density and population of our city then we MUST expand on the services that we contract thru VCAS. We also need to increase the community outreach for spay/neuter education and the importance of microchipping as well as increasing the number of low cost clinics for spay/neuter/microchip. Perhaps even incentivizing these things. And finally, there are parts of Oxnard that are overwhelmed and overrun with feral cats, we need a targeted TNR program to get these communities under control.	2/11/2021 1:06 PM

We definitely need to keep and improve 911 response. Paramedics and other emergency personnel are so valuable! And we absolutely need to be better prepared for unexpected emergencies or disasters (like this pandemic!). So better planning for resources that will be needed, such as supplies and community response teams. Mainly, we have to be better at communication throughout the communities with any changes or new programs or venues that take place, and this is critical when it involves emergency/disaster planning. Things like signage, directions, instructions, etc., are always needed; and we need to consider lighting because things happen at night!	2/9/2021 10:52 PM

331	I did not bother ranking the other services. I don't think we need to put more money in security cameras, or the police. Also we're already constantly surveyed, we don't need more cameras, it will not address the core issue, which is preventing crime. Crime is prevented by a community that is given opportunities to grow, education, and social services. We need more funding to go to social services, programs that create awareness. I work in emergency response, I can easily say more money to disaster preparedness but we need more funding to programs that provide the services when a disaster occurs. I live near the Oxnard Harbor, and it always boggles my mind why some areas in Oxnard are cleaner, roads and infrastructure are better taken care than others. It isn't that there is more crime because if that were the case then there would be more surveillance in those areas but there are not. They are neglected by the city, a city that receives taxes from those areas just like the other, but unfortunately don't have a voice. Please take care of all Oxnard citizens.	2/8/2021 1:08 PM

340	Police do not patrol neighborhoods. That should be standard practice. We also need to enforce tow-away rules in our City. We do not have enough parking spaces on streets because we allow multiple families with multiple vehicles to live in small apartments causing a jam and no parking space. Some vehicles such as vans are left abandoned for weeks at a time. We live in a very dense City and City government is not going after property owners who are making a lot of money renting to multiple families in a single home or apartment. There are many garages filled with renters. I am not against it so long as the living conditions meet City requirements but the problem is, how will the City deal with the lack of parking spaces on streets?? Property owners should pay more and report the true earnings they receive from renters. The City should at least collect more from these property owners. We have a parking problem for residents throughout the City. This should be addressed.	2/8/2021 9:04 AM

511	The Oxnard Public plays an important role in the Oxnard community by being an informal space where both random and intentional positive in-person relationships are made keeping residents safe and engaged after school and throughout the day. According to a PEW Report among those ages 65 and older 65% say that having a quiet and safe place to spend time at the library is important to them and their families overall. The Oxnard Public Library sees over a quarter million visitors every year, acting as a safe haven for more members of the community than any policing program.	2/3/2021 12:32 PM

537	Every candidate that runs for council gives the same speech that public safety is a priority. If it is such a priority why does the city have the same amount of cops now in 2021 as it did in 2007. Oxnard is also one of the lowest paid agencies in the county. Yet by far the are the busies and usually the lowest staff. If you expect loyalty and people to stay. Then you need to hold true to your word and pay them. Ventura recently hired a city attorney that handles civil matters for them. Why do we have all these city attorneys yet none of them go after people for civil violations. I know that there was a LARGE amount of civil cites with graffiti that have NEVER been paid. Why have city ordinances if they are not enforced. Every week yard sales or converted garages. My god we even have the citizens license their cats. We are simply paper toothless tigers when it comes to enforcing civil law in this city. Many of these officers do not live in our city and therefore at the end of the day don't really understand the impact of dealing with quality of life issues in our neighborhoods...they leave at the end of the day to go home to their nice cities. It doesn't affect their quality of life. I support police services but they need to be serious in their tasks.	2/3/2021 10:10 AM

Oxnard is far behind other VenturaCounty cities in providing safe streets for pedestrians and bicyclists. In addition, getting more people riding bikes for recreation and transportation gets more cars off the streets and results in less traffic congestion, pollution, accidents while promoting the healthy alternative of cycle. 54	I would like for there to be an intersectional evaluation of what Oxnard can do to save water since California is always in a perpetual drought. Also maybe putting restrictions/taxes on individuals/activities that use a lot of water. Also, doing a study on how the increase in sea water due to climate change will affect Oxnard and how we can mitigate it. Also, doing a study on water quality right now and how it can be improved in ALL of Oxnard not just select areas.	2/17/2021 12:07 PM

87	Making Oxnard a more pedestrian and biker friendly city is a must. Some Oxnardians travel with these methods that are currently unsafe, which can be seen by the many collisions that have occurred in the city. Public transit needs to be invested in more, incorporating a system that runs buses more frequently (bus rapid transit systems would be a good idea) as well as systems that travel throughout the county often to make commutes more doable and realistic. Investing in public transit can help alleviate heavy traffic, which will definitely be more of an issue with Oxnard's growing population.	2/16/2021 10:10 PM

In #3 flood protection is equally important in terms of risk and unintended consequences like putting off seawall repair and Water quality. All of these are important however looking at the economic needs and our desire to attract businesses and visitors to come and boost our economics all things become a balance between what will cost the most to not address and those of greater bang for the buck.	2/11/2021 2:29 PM

Maintain good water...avoid overdevelopment of housing as we already have a drought with serious water supply concerns... Where will all the extra people get their water? Calculated growth, please! Also, please help preserve and maintain the harbor as a functioning recreation and boating harbor... A place for people to go and gather for recreating, relaxing, shopping, eating, etc. All the people who will move to the new homes being built will want a place to go to hang out; houses be apartments don't have yards so purple go to the beach or harbor or park or other similar place to relax. The harbor area odds a wonderful venue for that so let's develop it for recreation... Please. And also, a fenced dog park would be great. Like the one in Camarillo.	2/9/2021 10:52 PM

278	Every single clean up and protection measure is important to work on over the next 5 years. I think if we look big picture, and tge city engages the community and brings in potential national grants, we can tackle each one of these things. We have an abundance of homeless people in the area. What if we train them and other unemployed or underemployed people to volunteer/work in a program like the proposed Climate Conservation Corps and expand upon City Corps to build their skills and help tackle all of these issues??? If we're providing housing to the homeless to help them get off their feet, the homeless recieving services could trade their time for rent for some time, while they build their skills and become more gainfully employed.	2/9/2021 9:44 PM

327	Our City is the largest in the County. Yet, we lag behind other cities regarding beautification projects and keeping it clean. Our alleys are the unofficial dumping grounds or landfill for our residents. There are many small unlicensed trash haul businesses that make it a point to dump trash in our alleys on a regular basis just so they don't have to pay for a disposal fee. We should enforce our City ordinances instead of creating more work orders for the 311 crews. 311 crews are getting larger which means an increase in City expenditures. That is not a wise business decision to simply increase 311 illegal dumping services and at the same time expect residents to pay for it through increased fees for services or City tax collection. Please go after the people who are dumping trash and toxic chemicals in our alley and byways.	2/8/2021 9:04 AM

Have the schools require community volunteer hours for students to get students to clean the parks to get them involved in our community and so they learn to appreciate the hard work it takes to maintain it. Add a community pool for south Oxnard residents. The colonia pool is too far and very limited. Add more activities like a bowling alley and more appealing parks like Santa Barbara's Kids World park so we don't have to go to other cities to spend our money. Make or at least brightly mark bike paths to the beach and downtown. Work with Oxnard and Port Hueneme school districts so that the south Oxnard residents can have access to the track fields and soccer fields after school hours to run and practice sports in our south Oxnard community.	2/7/2021 7:33 AM
358	Just to wrap up, the homeless problem is not isolated to Oxnard. It is a problem throughout the United States, focused mainly on large cities. I have worked in this city for over 2 decades, and the number of homeless have increased like a parabola graph. If we can get them off the streets, and put them in a detention-like facility, I believe it would be cheaper long run and much safer for our citizens. We could have them work on simple projects like they do in jails. We can put them to work cleaning up trash, or making things that we can sell for a profit. What we are doing now is not working. This is the number 1 threat to our city. Passing out clean needles, nasal narcan, and methadone is not the answer. It's only making the problem worse. As a staff person assigned to address state recycling laws, little to no attention seems to be placed on this very immediate and important aspect of government services. We have too few resources to complete our jobs adequately. With ten acres available at Del Norte, the city should be researching and working to attract contractors that will help us achieve state diversion mandates. Finally, Del Norte has the possibility of being a model for the rest of the state, but without investment in staff and resources, we cannot achieve this. We could install a high diversion composting facility, AD extraction technologies and/or modernize the MRF. Lot's of untapped opportunities.	2/3/2021 11:23 AM

If it isn't in a can they won't pick it up. In the past it has been KNOWN and reported that the refuse would get their work done and then hang out at the old donut shop on C Street and Gonzales Road. Put GPS on their trucks to see where they are at. I even have a guy that works in my office says his friend in refuse comes over to his house to play video games while he is working. 527	Alleys have been ignored for as long as I have been alive here (29 years). It is time they are maintained to insure garages, and backyards are used for parking as lack of parking is a main issue facing the City made worse with Newsom's ADU laws. Furthermore, landscaping and paving of roads needs to be priority as many residents get vehicles damaged from the bad roadways. Lastly, the main corridors into the city are TRASHBOXES and need to be maintained. New development has issues with landscaping the City needs to find a third party to do this work as City staff is not efficient and should not be allowed to maintain new communities landscaping. Lastly, the need to repair seawalls and levies are not top priority as these sectors of town benefit from residents that are more well off and the protection they serve is really only enjoyed by a few and does not reflect the whole needs of the majority of the City. If projects needs to be done there there new development or a special district tax needs to be charged.	2/3/2021 10:00 AM

Food for Thought

Priorities are not a laundry list of wishes and desires

FOCUS ON 5-YEAR WINDOW

Make aspirational choices that are achievable and measurable.

MATCH WITH RESOURCES

Priorities should be matched with sufficient resources -- existing and new.

BE MEASURABLE

Priorities should include metrics.

INCLUDE A TIMELINE

Progress should be tracked within the next five years.

ALIGN WITH MEASURE E

Priorities should align with Measure E's restorations and investments.

BE REFLECTED IN BUDGET

The priorities and the Measure E choices will inform and should be reflected in the annual budget.

What City Council Needs to Do

PRIOR TO FEBRUARY 25

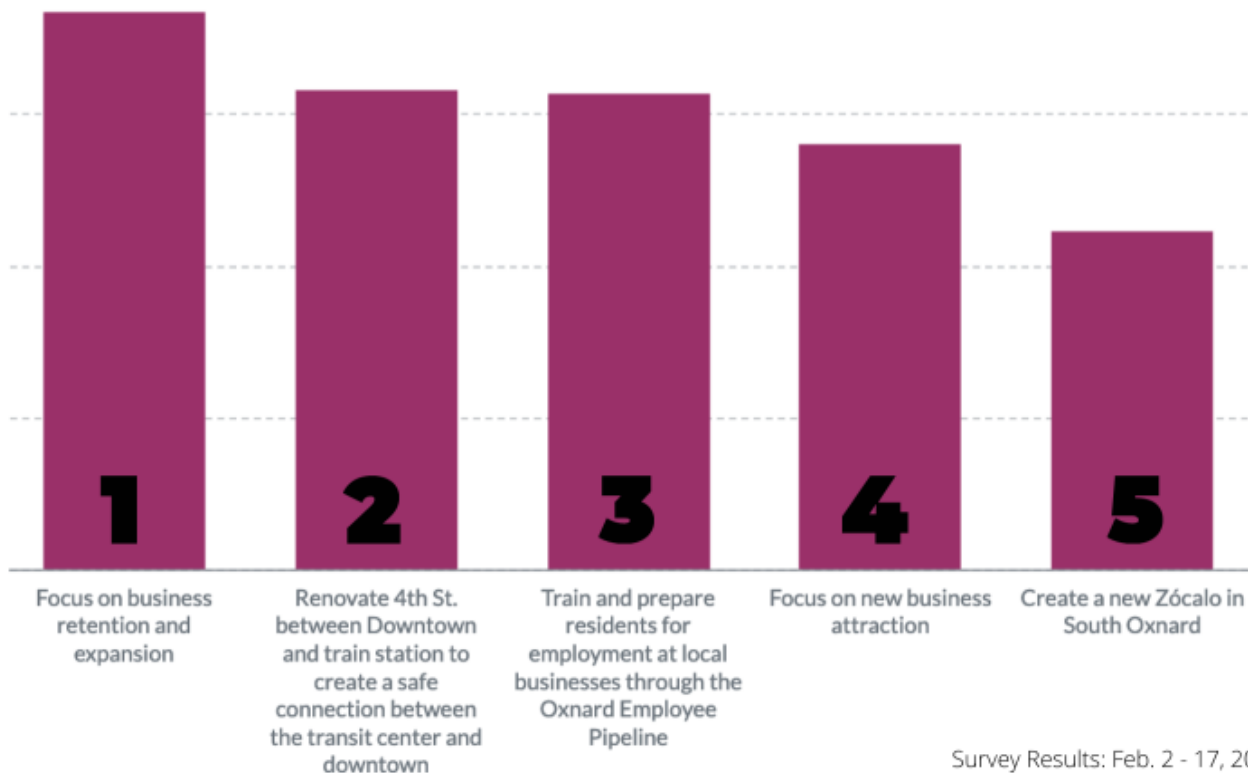

- 1 Review public input from surveys
- 2 Review staff recommendations
- 3 Synthesize that information

ON FEBRUARY 25

- 1 Hear public comment
- 2 Discuss and debate priorities
- 3 Select the 2021-2025 five-year priorities

Survey Results | Economic Development
