

CITY OF OXNARD PLANNING COMMISSION AGENDA

REGULAR MEETING

Council Chambers, 305 West Third Street
Thursday, December 16, 2021, 6:00 p.m.

This meeting is being held in accordance with Assembly Bill 361, allowing members of the Planning Commission, members of the public and staff to participate via teleconference.

Consistent with City policies imposed to promote social distancing, the facility where the Planning Commission regularly meets is temporarily closed to the public. The public is encouraged to view the meeting from home on the City's website at Oxnard.org/city-meetings, Spectrum Channel 10, Frontier Channel 35, or YouTube at Youtube.com/oxnardnews. Video recordings are typically available online following the meeting at the City's website at <http://www.oxnard.org/city-meetings>

YOU MAY PARTICIPATE IN THE MEETING IN THE FOLLOWING WAYS:

1. EMAILING COMMENTS OR REQUESTS TO SPEAK BEFORE THE MEETING

- a. Submit an email to Planning@oxnard.org no later than 3:00 p.m. on the day of the meeting (Please indicate the agenda item number in the subject line). All email correspondence will be forwarded to the Planning Commission prior to the start of the meeting and made part of the legislative record.
- b. Submit a request to speak by no later than 3pm on the day of the meeting by using the form <https://forms.gle/cJuq1FTZUdtnN7MZ8>, emailing the Planning office at planning@oxnard.org, or calling (805) 385-7878.

2. PROVIDING PUBLIC COMMENTS DURING THE MEETING

- a. Speakers shall have up to three minutes to speak.
- b. If you wish to speak during public comments or a particular item on the agenda, please follow the below instructions:
 1. Dial phone number (888) 475-4499
 2. Enter the meeting ID: 884 6630 7698
 3. Enter the meeting passcode: 390809
 4. Wait in the Zoom waiting room. Once the Chair calls for public speakers, press *9 to raise your hand to inform the recording secretary you would like to speak..
- c. Public comments on items not on the agenda shall be taken at the beginning of the meeting. If there are more speakers than can be accommodated during thirty minutes, additional speakers who will be given an opportunity to speak at the end of the meeting. After all public speakers have been given an opportunity to speak, the public comment period shall be held open for three minutes to allow additional speakers to register or otherwise be recognized for the purpose of providing public comment. During this three minute time period, the Planning Commission or staff may briefly respond to comments on items not appearing on the agenda.
- d. Public comments on items on the agenda shall be taken following the announcement of the item. After all public speakers have been given an opportunity to speak on an agenda item, the public comment period shall be held open for three minutes to allow additional speakers to register or otherwise be recognized for the purpose of

In compliance with the Americans with Disabilities Act, if you need special assistance to participate in a meeting, you should contact the office of the City Clerk at (805) 385-7803. Notification 72 hours prior to the meeting will enable the City to make reasonable arrangements to assure accessibility to the meeting.

Written materials relating to an item on this agenda that are distributed to the Planning Commission within 72 hours before the item is to be considered at its regularly scheduled meeting will be made available for public inspection at 214 South C Street, during customary business hours.

providing public comment. During this three minute time period, the Planning Commission or staff may discuss the item being considered.

In the event of a disruption which prevents a legislative body of the City of Oxnard from broadcasting a meeting using a call-in option or internet-based service option, or in the event of a disruption within the City's control which prevents members of the public from offering public comment using the call-in option or internet-based service option, the legislative body shall take no further action on items appearing on a meeting agenda until public access to the meeting via the call-in option or internet-based service option is restored. However, if any of the broadcast options are disrupted, but any of the other broadcast options is still available to the public, the legislative body may take further action on items appearing on a meeting agenda without waiting for the disrupted broadcast option(s) to be restored.

A. ROLL CALL

B. PLEDGE OF ALLEGIANCE TO THE FLAG OF THE UNITED STATES

C. PUBLIC COMMENTS - On Items Not On The Agenda

At this time, a person may address the Planning Commission on matters within the jurisdiction of the Planning Commission, including information/consent items and any item not appearing on the agenda. The Chair shall limit public comments to three (3) minutes. The Planning Commission cannot take action on any item presented during public comments that is not on the agenda and such item may only be referred to the Commission Secretary. Persons wishing to speak on public hearing items should do so at the time of the public hearing.

D. CONSENT AGENDA

1. **Subject:** Adoption of a Resolution reauthorizing remote teleconference meetings of the Planning Commission of the City of Oxnard.

Recommendation: That the Planning Commission adopt Resolution 2021-XX reauthorizing remote teleconference meetings of the Planning Commission in accordance with Assembly Bill 361.

2. Adoption of the 2022 Planning Commission Meeting Calendar

E. EX PARTE DECLARATIONS FOR PUBLIC HEARING ITEMS

F. PUBLIC HEARING

1. **Project Name: RiverPark Specific Plan Amendment & Development Agreement Amendment - PLANNING AND ZONING PERMIT No. 20-630-01 (Seventh Amendment to the RiverPark Specific Plan) and PZ No. 20-670-04 (Sixth Development Agreement Amendment) and certification of an Addendum to Final Environmental Impact Report No. 00-03.** The project consists of the following requested actions:
 - a. Text and map amendments to the RiverPark Specific Plan to introduce a new high

In compliance with the Americans with Disabilities Act, if you need special assistance to participate in a meeting, you should contact the office of the City Clerk at (805) 385-7803. Notification 72 hours prior to the meeting will enable the City to make reasonable arrangements to assure accessibility to the meeting.

PLANNING COMMISSION STAFF REPORT

TO: Planning Commission

FROM: Kenneth Rozell, Chief Assistant City Attorney

DATE: December 16, 2021

SUBJECT: Adoption of a resolution reauthorizing remote teleconference meetings of the Planning Commission of the City of Oxnard

RECOMMENDATION

That the Planning Commission adopt Resolution 2021-XX reauthorizing remote teleconference meetings of the Planning Commission in accordance with Assembly Bill 361.

BACKGROUND

On March 4, 2020, Governor Newsom issued Executive Order N-29-20, which in part, suspended the Ralph M. Brown Act (the "Brown Act") requirements for the conduct of meetings via teleconference during the COVID-19 pandemic. The Governor issued Executive Order N-08-21 on June 11, 2021, extending the Brown Act modifications in Executive Order N-29-20 through September 30, 2021.

On September 16, 2021, the Governor signed Assembly Bill 361 ("AB 361"), which amends the Brown Act to allow meetings of legislative bodies to be conducted via teleconference under certain conditions during proclaimed emergencies.

On September 20, 2021, the Governor issued Executive Order N-15-21 suspending the provisions of AB 361 through September 30, 2021, and clarifying that legislative bodies may continue to meet under Executive Order N-29-20 through September 30, 2021.

AB 361 allows legislative bodies to hold meetings utilizing teleconferencing without complying with the standard teleconferencing requirements if the Governor has proclaimed a State of Emergency and any of the following circumstances occur:

- State or local officials have imposed or recommended measures to promote social distancing; or
- A meeting is being held for the purposes of determining, by majority vote, whether as a result of the emergency, meeting in person would present imminent risks to the health or safety of attendees; or
- The legislative body has determined that as a result of the emergency, meeting in person would present imminent risks to the health or safety of attendees.

The City's COVID-19 Comprehensive Policy and Protocol imposes measures to promote social distancing. Further, the Governor's proclaimed state of emergency remains in effect.

If a meeting is held via teleconference under AB 361, the following requirements apply:

- Notice of the meeting must still be given in compliance with the Brown Act, and the notice must include the means by which the public may access the meeting and provide public comment.
- The public must be provided access to the meeting via a call-in option or internet-based service option and allowed to "address the legislative body directly." The agency does not have to provide an in-person option for the public to attend the meeting.
- The meeting must be conducted "in a manner that protects the statutory and constitutional rights of the parties and the public appearing before the legislative body."
- If there is a disruption to the meeting broadcast or in the ability to take call-in or internet-based public comment, no further action can be taken on agenda items until the issue is resolved.
- The body cannot require comments to be submitted before the start of the meeting. The public must be allowed to make "real-time" public comments.
- If the agency provides a timed public comment period, the public comment period must be left open until the time expires. If no timed public comment period is provided, a reasonable amount of time per agenda item must be provided.
- Findings must be made every 30 days to continue to conduct teleconference meetings under AB 361. The body must find it has reconsidered the circumstances of the state of emergency and either 1) the emergency continues to impact the ability to meet safely in person, or 2) State or local officials continue to impose or recommend measures to promote social distancing.

On October 7, 2021, November 4, 2021, and December 2, 2021, the Planning Commission adopted Resolutions 2021-36, 2021-38, and 2021-48 respectively, authorizing remote teleconference meetings of the Planning Commission in accordance with Assembly Bill 361.

The proposed resolution:

- Reauthorizes staff and the Planning Commission to conduct open and public meetings in accordance with Government Code section 54953(e) and other applicable provisions of the Brown Act.

- Provides that, in the event of a disruption in the meeting broadcast or which prevents public comment, the Planning Commission shall not take further action on agenda items until the disruption is resolved, provided that, for a broadcast disruption, action may continue to be taken if the meeting is still being broadcast over any of the media options specified in the posted agenda for the meeting.

If adopted, the resolution will take effect immediately upon its adoption and will be effective until the earlier of (i) January 15, 2022, or (ii) such time as the Planning Commission adopts a subsequent resolution in accordance with Government Code section 54953(e)(3) to extend the time during which the Planning Commission may continue to teleconference without compliance with Government Code section 54953(b)(3).

1. AB 361 RESOLUTION

PLANNING COMMISSION OF THE CITY OF OXNARD
RESOLUTION NO. 2021-XX

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF OXNARD
REAUTHORIZING REMOTE TELECONFERENCE MEETINGS OF THE PLANNING
COMMISSION IN ACCORDANCE WITH ASSEMBLY BILL 361

WHEREAS, on March 4, 2020, the Governor of the State of California (the “Governor”) proclaimed a statewide state of emergency due to COVID-19; and

WHEREAS, on March 12, 2020, the Ventura County Health Officer (the “Health Officer”) declared a Local Health Emergency due to COVID-19; and

WHEREAS, on March 13, 2020, the Director of Emergency Services of the City of Oxnard (the “Director”) proclaimed the existence of a local emergency due to COVID-19; and

WHEREAS, on March 17, 2020, the City Council ratified the Director’s local emergency proclamation; and

WHEREAS, all meetings of the City of Oxnard’s legislative bodies are open and public, as required by the Brown Act (Cal. Gov. Code sections 54950 et seq.), so that any member of the public may attend, participate, and watch the City’s legislative bodies conduct their business; and

WHEREAS, beginning in March 2020, the Governor issued a series of Executive Orders, N-25-20, N-29-20, and N-35-20, that waived certain Brown Act requirements to allow legislative bodies to continue meeting while slowing the spread of COVID-19; and

WHEREAS, N-29-20 allowed the City’s legislative bodies to meet via teleconference without complying with certain Brown Act requirements; and

WHEREAS, on June 11, 2021, the Governor issued Executive Order N-08-21, extending the Brown Act provisions of N-29-20 through September 30, 2021; and

WHEREAS, on September 16, 2021, the Governor signed Assembly Bill 361 (“AB 361”) into law, allowing the City’s legislative bodies to continue to meet via teleconference during proclaimed states of emergency under modified Brown Act requirements; and

WHEREAS, AB 361, at Government Code section 54953(e), provides for teleconferencing participation in meetings by members of a legislative body, without compliance with the requirements of Government Code section 54953(b)(3), subject to the existence of certain conditions; and

WHEREAS, AB 361 allows legislative bodies to continue to meet via teleconference when a state of emergency is declared by the Governor pursuant to Government Code section 8625, proclaiming the existence of conditions of disaster or of extreme peril to the safety of persons and property within the state caused by conditions as described in Government Code section 8558; and

WHEREAS, AB 361 further requires that state or local officials have imposed or recommended measures to promote social distancing, or, the legislative body meeting in person would present imminent risks to the health and safety of attendees; and

WHEREAS, the Governor's proclaimed state of emergency, the Ventura County Health Officer's declared local health emergency, and the Director's and City Council's proclaimed local emergency remain in effect; and

WHEREAS, the City's COVID-19 *Comprehensive Policy and Protocol* imposes measures to promote social distancing; and

WHEREAS, meetings of the City's legislative bodies are broadcast on Spectrum Channel 10, Frontier Channel 10, and Youtube.com/Oxnardnews ("Broadcast Options"); and

WHEREAS, on September 17, 2021, the Health Officer informed the public that Ventura County's case rate is 19.3, which is still considered widespread community transmission by the Centers for Disease Control and Prevention and the California Department of Public Health; and

WHEREAS, on September 21, 2021, the Health Officer issued a letter recommending that social distancing measures continue to be practiced throughout Ventura County communities to minimize the spread of COVID-19.

WHEREAS, on October 7, 2021, November 4, 2021, and December 2, 2021, the Planning Commission adopted Resolutions 2021-36, 2021-38, 2021-48 respectively, authorizing remote teleconference meetings of the Planning Commission in accordance with Assembly Bill 361.

NOW, THEREFORE, the Planning Commission of the City of Oxnard resolves as follows:

SECTION 1. The Recitals set forth above are true and correct and are incorporated into this Resolution by this reference.

SECTION 2. In-person meetings of the Planning Commission would present imminent risks to the health or safety of attendees.

SECTION 3. The staff and members of the Planning Commission are hereby reauthorized and directed to take all actions necessary to carry out the intent and purpose of this Resolution including, conducting open and public meetings in accordance with Government Code section 54953(e) and other applicable provisions of the Brown Act.

SECTION 4. In the event of a disruption which prevents the Planning Commission from broadcasting a meeting using a call-in option or internet-based service option, or in the event of a disruption within the City's control which prevents members of the public from offering public comment using the call-in option or internet-based service option, the Planning Commission shall take no further action on items appearing on a meeting agenda until public access to the meeting via the call-in option or internet-based service option is restored. However, if any of the Broadcast Options are disrupted, but any of the other Broadcast Options is still available to the public, the Planning Commission may take further action on items appearing on a meeting agenda without waiting for the disrupted Broadcast Option(s) to be restored.

SECTION 5. This Resolution shall take effect immediately upon its adoption and shall be effective until the earlier of (i) November 7, 2021, or (ii) such time the Planning Commission adopts a subsequent resolution in accordance with Government Code section 54953(e)(3) to extend the time during which the Planning Commission may continue to teleconference without compliance with Government Code section 54953(b)(3).

SECTION 6. If any section, subsection, clause or phrase in this Resolution is for any reason held invalid, the validity of the remainder of this Resolution shall not be affected thereby. The Planning Commission would have passed this Resolution and each section, subsection, sentence, clause, or phrases thereof, irrespective of the fact that one or more sections, subsections, sentences, clauses or phrases thereof be held invalid.

MEMO

DATE: December 16, 2021

TO: Planning Commission

FROM: Scott Kolwitz, Planning Manager
Vyto Adomaitis, Community Development Director

SUBJECT: Planning Commission 2022 Calendar Agenda Item No: D-2

Staff recommends that the Planning Commission adopt the 2022 Meeting Calendar with public meeting dates on the first and third Thursday of each month, with one exception. The City Council is to host a special meeting on Thursday, January 6, 2022 at 6:00 PM, and consequently, the Planning Commission cannot meet on January 6, 2022. Staff recommends the Planning Commission convene for a Special Meeting on Thursday, January 13, 2022 at 6:00 PM. The recommended meeting dates are shown on the 2022 Meeting Calendar (Attachment A).

This calendar is consistent with the Planning Commission resolution and Rules of Procedures and requires an approval vote by the Planning Commission. The start of the regular meeting will continue to be at 6:00 PM.

Adopting this calendar does not impact the ability for a special meeting to be scheduled by the Director through communication to the Chair for an acceptable date and time.

MEMORANDUM

Agenda Item No.: F.1

Date: December 15, 2021

To: Planning Commission

From: Joe Pearson II, Senior Planner (805) 385-8272
Scott Kolwitz, Planning & Environmental Services Manager

Subject: Transmittal Memo No. 1 – RiverPark Specific Plan Amendment & Development Agreement Amendment - PLANNING AND ZONING PERMIT No. 20-630-01 (Seventh Amendment to the RiverPark Specific Plan) and PZ No. 20-670-04 (Sixth Development Agreement Amendment) and certification of an Addendum to Final Environmental Impact Report No. 00-03. The project consists of the following requested actions:

- a. Text and map amendments to the RiverPark Specific Plan to introduce a new high density land use designation within Planning Districts B, C, and D (Residential: Very High (30-80 units/acre)); create a new development type (Apartments - Urban); revise planning area boundaries; update the Land Use Table; and update exhibits for consistency with proposed changes. This amendment would allow development of up to 1,025 additional residential units, in exchange for a reduction of up to approximately 562,457 square feet of non-residential development.
- b. Development Agreement Amendment to allow for a time extension, impact fee modifications, and define future affordable housing requirements.

The Project is located in the RiverPark Specific Plan area generally located North of the Ventura Freeway (Highway 101), west of East Vineyard Avenue, east of the Santa Clara River, and south of Central Avenue. The project application was filed by Ann Walsh of Shea Properties, 2751 Park View Court, Suite 261, Oxnard, CA 93036.

Subsequent to the release of the Staff Report, staff has received 4 communications from the public concerning the proposed project (attached).

Staff has reviewed the email and will provide a response as necessary.

Dear Planning Commission,

As a homeowner in RiverPark, I oppose the proposed RPSP and Development Agreement Amendments. It is my belief that the amendments are being presented as a "Plan B" or "back-up plan" when in reality the profits of developing 1,025 additional residential units is far greater than 562,457 square feet of non-residential development. So it is clear to me this amendment is not at the benefit of residents, instead for the protection of potential profits for Shea Properties. Also, parking has been a long time issue for this area and the Specific Plan Amendment assumptions are extremely inaccurate. For example: a 1-bedroom is assumed 1 parking space when residents of 1 bedrooms in this area have at the minimum 2 persons (typically more) with more than 1 vehicle.

It is my hope that the Planning Commission values the voices of RiverPark residents whom would be effected by these

Good evening/morning Joe

My name is Katherine Lazier and I'm a homeowner in Riverpark.

There are several Neighbours that have expressed concern that this meeting is coming at a very inopportune time. Given that it's 9 days before Christmas and the vast majority of us will be celebrating with our families for the first time in a year, due to Covid, we'd like to ask for a postponement of this meeting until January.

This will give RP residents more time to fully understand the proposal.
There have been many questions raised that have not been answered by the City or Shea Properties.

I think it's only fair to reconvene this meeting to early 2022.

Regards

Katherine Lazier

On Mon, Dec 13, 2021 at 10:54 PM Kathy <klazier@earthlink.net> wrote:

Good evening

My name is Katherine Lazier.
I am a Riverpark resident of 14 years.
This is the 7th amendment to the RPSP in the years I've been here.

However, this proposal is the most egregious example of sheer greed.
An additional (up to) 1025 units on a very small parcel of land, in what is already a densely populated area, will be hugely impactful on our quality of life here in Riverpark.

There is already a huge parking issue. Residents that own a home towards The Collection can not have visitors or use parking in front of their homes because of the lack of parking.
This lack of parking is spilling over to the rest of Riverpark.
The city allowed a reduction in parking/unit and this has contributed to this issue.

The second issue is the increase in traffic.

At any given time during the day, traffic flow into The Collection blocks the intersection coming off the freeway on Oxnard Blvd.

The intersection also fills up with cars going against the lights, not to mention the amount of cars that run the red lights.

Ventura road will become a nightmare as the gas station will be going on in the next few years.

And the extra traffic coming from the Wagon Wheel development has already impacted traffic on Ventura road. Getting on/ off the freeway there with additional cars from this proposed amendment will severely impact us here.

These are just 2 examples of how horribly this extra development will impact our quality of life.

Therefore, please take note that I am vehemently against this proposed amendment.

Best

Katherine Lazier

CC: Gabe Teran and Ann Walsh for awareness.

Oxnard Planning Commission, Joe Pearson,

As a resident in Riverpark that lives close to the Collection, I am completely opposed to the suggested change, however, I do understand the City and the developer(s) want to ensure that this area remains viable should retail options not succeed. I am suggesting that this be taken off the table and host a series of workshops and/or forms to gain resident feedback what THE RESIDENTS would like to see. The intent is that we are the ones that have to tolerate the conditions and we are more likely to support a project change that we have an opportunity to weigh in on. Please consider it.

If this cannot be revisited at a later date, I am voicing my opposition to a change in the Master Plan for combined mixed retail and housing. I am opposed to high density residential dwellings in this area. One of my concerns is that regardless of the recommended parking that will be provided, my opinion is that it is not sufficient. With the exception of a studio each unit needs to be increased at least one additional car space. For example, one bedroom should have two spaces and two bedrooms should have three spaces at minimum.

Even with my suggestions I still do not see street parking in the surrounding areas not being impacted as well as a heavy increase in traffic in the neighborhood. Over one thousand units will contribute to a large amount of traffic in an already heavily populated area that is mixed with retail and housing.

I do understand the intent is to protect the viability of the property but honestly, I see this as way to move forward with housing now and not at a later date. If it truly is the case for future protection, we should take this into consideration to change the master plan later and not at this time.

The residents are the ones that have to tolerate the conditions and Shea development has not done much to engage with the community on this project or any for that matter to gain insight what we would like as we are the ones that will have to tolerate the conditions.

Please acknowledge you have received my response as I have a conflict and will not be able to attend the meeting live.

Kind regards,

Tai Hartley

City of Oxnard Mail - Opposed to Dec. 16th - Riverpark Specific Plan and Development Agreement and Amendment

(805) 236-6693

MEMORANDUM

Agenda Item No.: F.1

Date: December 16, 2021

To: Planning Commission

From: Joe Pearson II, Senior Planner (805) 385-8272
Scott Kolwitz, Planning & Environmental Services Manager

Subject: Transmittal Memo No. 2 – RiverPark Specific Plan Amendment & Development Agreement Amendment - PLANNING AND ZONING PERMIT No. 20-630-01 (Seventh Amendment to the RiverPark Specific Plan) and PZ No. 20-670-04 (Sixth Development Agreement Amendment) and certification of an Addendum to Final Environmental Impact Report No. 00-03. The project consists of the following requested actions:

- a. Text and map amendments to the RiverPark Specific Plan to introduce a new high density land use designation within Planning Districts B, C, and D (Residential: Very High (30-80 units/acre)); create a new development type (Apartments - Urban); revise planning area boundaries; update the Land Use Table; and update exhibits for consistency with proposed changes. This amendment would allow development of up to 1,025 additional residential units, in exchange for a reduction of up to approximately 562,457 square feet of non-residential development.
- b. Development Agreement Amendment to allow for a time extension, impact fee modifications, and define future affordable housing requirements.

The Project is located in the RiverPark Specific Plan area generally located North of the Ventura Freeway (Highway 101), west of East Vineyard Avenue, east of the Santa Clara River, and south of Central Avenue. The project application was filed by Ann Walsh of Shea Properties, 2751 Park View Court, Suite 261, Oxnard, CA 93036.

Subsequent to the release of the Staff Report and Transmittal Memo #1, staff has received 4 communications from the public concerning the proposed project (attached).

Staff has reviewed the email and will provide a response as necessary.

Hello,

I am sending this email regarding the plans/projects in the Riverpark area.

As a resident, I would like to voice some comments/concerns and my opposition.

With a 208% increase in apartments with the most number of planned additional units at the collection parking area, what are your immediate plans regarding issues with limited parking, safety (e.g. theft and burglar) and heavy traffic in the area?

We are currently experiencing these problems as it is and with the proposed projects, it will make the matter worse.

I hope that these concerns will be highly considered as it will greatly impact the community.

CC for awareness Gabe Teran and Nancy Madrid

Planning Commission and Joe Pearson,

I would like to bring to the attention of the Planning Committee that Ann Wash is spreading misleading information about her communication with me and the Riverpark Neighborhood Council on social media in regards to the Change in Master Plan set to take place tomorrow December 16, 2020. She is engaging with residents and not providing complete details regarding her contact and lack of communication.

I would first like to mention that it is NOT the job of the neighborhood council to conduct meetings to engage the community when we do not have the bandwidth or does not meet the criteria we require. Due to this Ann was made aware in October we were not able to facilitate her in November or December as our council goes in hiatus due to lack of attendance in previous years and the council does not have the bandwidth and/or resources during the holidays. This is also mentioned on our meeting agendas in September and October.

Although we were not able to conduct a meeting I did want to help Ann and offered several alternatives. She could remain in our Facebook group and publish either a video, presentation or do a Facebook Live. I understand she may not have been familiar with these things, so I offered to assist multiple times. She didn't take up any offer and I have since moved on.

This apparently does not suit her agenda and she went on a Riverpark social media group trying to claim she went to the NC and we were not helpful. She is misleading the community. She also is not mindful of the time of unpaid volunteers when she is the PAID representative for Shea Properties. She is trying to not only get free work out of us but spread misleading information. She could have conducted meetings on her own as she has the resources to do so, and I would have also helped her promote them to ensure our community is made aware of the item and has an opportunity to ask questions to make an informed decision.

She continues to spread misinformation on social media when she made a post and stated a brief blurb from a Facebook Messenger conversation in July of 2020 asking for time to talk. She stated on social media a brief excerpt from the message, when I said, "this is not a good time". That is correct I did say that, but she failed to mention I also said please email me and provided my email address. She didn't contact me after that. I am showing a screen shot that shows there was no email from her with in that time frame.

Given her actions I am leaving it to the Planning committee to be aware that if she is misleading the Riverpark community she is potentially misleading others as well.

Kindly acknowledge receipt of this email.

Kind regards,

Tai Hartley

Opposed to Dec. 16th- Riverpark Specific Plan and Development Agreement and Amendment

Michael Kubanet <kubanetmk@gmail.com>

Thu, Dec 16, 2021 at 9:03 AM

To: "joe.pearson@oxnard.org" <joe.pearson@oxnard.org>, planning@oxnard.org, "gabe.teran@oxnard.org" <gabe.teran@oxnard.org>, "john.zaragoza@oxnard.org" <john.zaragoza@oxnard.org>, "bert.perello@oxnard.org" <bert.perello@oxnard.org>, "bryan.macdonald@oxnard.org" <bryan.macdonald@oxnard.org>, "oscar.madrighal@oxnard.org" <oscar.madrighal@oxnard.org>, "gabriela.basua@oxnard.org" <gabriela.basua@oxnard.org>
Cc: "ann.walsh@sheaproperties.com" <ann.walsh@sheaproperties.com>, Tai Hartley <TaiHartley@aol.com>, Kari Kubanet <karikubanet@gmail.com>

Oxnard Planning Commission, Joe Pearson, and City Council Members,

As a resident in Riverpark that lives adjacent to the Collection and the existing apartments, I am completely opposed to the suggested change, however, I do understand the City and the developer(s) want to ensure that this area remains viable should retail options not succeed. I am suggesting that this amendment be put on hold and that the city work with the Riverpark Neighborhood Council and the residents of Riverpark to adopt a solution that works for both the city and the residents of Riverpark affected by this suggested change.

If this amendment cannot be revisited at a later date, I am voicing my opposition to a change in the Master Plan for combined mixed retail and housing. I am opposed to high-density residential dwellings in this area. The addition of over 1000 high-density apartments will compound existing issues that are already affecting the Riverpark.

Issues:

1. Parking- The current residents of the existing apartments already occupy the bulk of the surrounding street parking and have been spilling into the adjacent neighborhood parking which is already limited. This has forced some of the residents to illegally park in fire lanes and on corners making it difficult for vehicles to drive on our narrow streets.
2. Parking citation/enforcement- Illegal parking enforcement by the city has been close to non-existent making transiting our streets difficult and dangerous.
3. Overcrowding of Rio Schools- The addition of High-Density apartments will affect the population of our schools and put additional stress on the surrounding schools and their teachers. Classroom sizes are already between 25 -30 students and without the addition of another school, the district would be forced to add portable/mobile classrooms to the school campus and increase class sizes.
4. Traffic- How many additional vehicles will be added to the surrounding area with the addition of high-density apartments not to mention the addition of a large Amazon distribution center to our city. Our surrounding streets and highways are already extremely congested during rush hour.

I do understand the intent is to protect the viability of the property but honestly, Retail is still recovering from the effects Covid had on the world economy. I believe this amendment should be put on hold and revisited a year or two from now. The residents are the ones that have to tolerate the conditions and Shea development has not done enough to engage with the Riverpark community on this project.

Thank you,
Michael K. Kubanet

On Wed, Dec 15, 2021 at 7:45 PM 'ILANA STICE' via Planning <planning@oxnard.org> wrote:

I live in Riverpark and am all for keeping the area viable, but I am concerned about the proposed changes being requested now. I know this is supposed to be a "plan B" but I fear that with a change sooner than necessary, it opens the door to not try so hard for the retail and jump straight to the residential units back up plan. If I am reading the map correctly, one of the parking areas at the Collection will be converted to apartments. Parking there, esp. on weekends or special events is hard enough, so losing spots is not going to benefit the businesses.

I think that if there is a legitimate need to change based on an actual need, then it could be revisited at that time.

Sincerely,

Ilana Stice

ICO Riverpark Specific Plan proposed amendments

Michael Wallace <michael.jonathan.wallace@gmail.com>
To: planning@oxnard.org, joe.pearson@oxnard.org

Thu, Dec 16, 2021 at 2:42 PM

Good afternoon,

We live a block away from one of the proposed apartment complexes being discussed tonight. As such, we see the parking lot at the Collection when walking our dogs and driving around. Given that the Collection is HEAVILY crowded on many weekend nights including Fridays, we are extremely concerned with the disregard for the current parking situation let alone this proposal.

This proposal will remove a significant portion of the available parking for the Collection while simultaneously adding over 300 apartments to the same area. Without the addition of multiple parking garages at the Collection, we cannot fathom how this does not greatly exacerbate the current parking situation. Until that (or a suitable alternative occurs), I will object to any removal of existing parking areas for additional apartments. As it stands now, some residents in the area between Vineyard Park and Riverpark Blvd have to park on the El Rio side of Vineyard Park and walk across it as there is not sufficient parking in the neighborhood.

For the record, we have no objection to the proposals west of Oxnard Blvd as there is no existing parking issue and there should be less impact to existing residents given the multiple ingress and egress routes to that side of the neighborhood (Ventura Ave and Oxnard Blvd).

Regarding concerns from residents along Riverpark Blvd between Colorado and Danvers Rivers, I agree with their objections to any buildings above 3 stories (in addition to my parking related objections). Any plan in the future needs to have enough foliage to provide privacy for the existing homeowners (e.g. trees in sufficient size planted along both sides of Riverpark Blvd).

Thank you for your time.

Sincerely,
Michael Wallace and Sarah Johns-Wallace

RE: City of Oxnard's Lockwood Senior Apartment Project

Dear Rose Chaparro,

On behalf of the Southwest Regional Council of Carpenters (“**Southwest Carpenter**” or “**SWRCC**”), my Office is submitting these comments for the City of Oxnard’s (“**City**”) December 16, 2021, City Planning Commission Meeting for the Lockwood Senior Apartment Project (“**Project**”).

The Southwest Carpenters is a labor union representing 50,000 union carpenters in six states, including California, and has a strong interest in well ordered land use planning and addressing the environmental impacts of development projects.

Individual members of the Southwest Carpenters live, work and recreate in the City and surrounding communities and would be directly affected by the Project’s environmental impacts.

SWRCC expressly reserves the right to supplement these comments at or prior to hearings on the Project, and at any later hearings and proceedings related to this Project. Cal. Gov. Code § 65009(b); Cal. Pub. Res. Code § 21177(a); *Bakersfield Citizens for Local Control v. Bakersfield* (2004) 124 Cal. App. 4th 1184, 1199-1203; see *Galante Vineyards v. Monterey Water Dist.* (1997) 60 Cal. App. 4th 1109, 1121.

SWRCC incorporates by reference all comments raising issues regarding the EIR submitted prior to certification of the EIR for the Project. *Citizens for Clean Energy v City of Woodland* (2014) 225 Cal. App. 4th 173, 191 (finding that any party who has objected

to the Project’s environmental documentation may assert any issue timely raised by other parties).

Moreover, SWRCC requests that the City provide notice for any and all notices referring or related to the Project issued under the California Environmental Quality Act (“**CEQA**”), Cal Public Resources Code (“**PRC**”) § 21000 *et seq*, and the California Planning and Zoning Law (“**Planning and Zoning Law**”), Cal. Gov’t Code §§ 65000–65010. California Public Resources Code Sections 21092.2, and 21167(f) and Government Code Section 65092 require agencies to mail such notices to any person who has filed a written request for them with the clerk of the agency’s governing body.

The City should require the use of a local skilled and trained workforce to benefit the community’s economic development and environment. The City should require the use of workers who have graduated from a Joint Labor Management apprenticeship training program approved by the State of California, or have at least as many hours of on-the-job experience in the applicable craft which would be required to graduate from such a state approved apprenticeship training program or who are registered apprentices in an apprenticeship training program approved by the State of California.

Community benefits such as local hire and skilled and trained workforce requirements can also be helpful to reduce environmental impacts and improve the positive economic impact of the Project. Local hire provisions requiring that a certain percentage of workers reside within 10 miles or less of the Project Site can reduce the length of vendor trips, reduce greenhouse gas emissions and providing localized economic benefits. Local hire provisions requiring that a certain percentage of workers reside within 10 miles or less of the Project Site can reduce the length of vendor trips, reduce greenhouse gas emissions and providing localized economic benefits. As environmental consultants Matt Hagemann and Paul E. Rosenfeld note:

[A]ny local hire requirement that results in a decreased worker trip length from the default value has the potential to result in a reduction of construction-related GHG emissions, though the significance of the reduction would vary based on the location and urbanization level of the project site.

March 8, 2021 SWAPE Letter to Mitchell M. Tsai re Local Hire Requirements and Considerations for Greenhouse Gas Modeling.

Skilled and trained workforce requirements promote the development of skilled trades that yield sustainable economic development. As the California Workforce Development Board and the UC Berkeley Center for Labor Research and Education concluded:

. . . labor should be considered an investment rather than a cost – and investments in growing, diversifying, and upskilling California’s workforce can positively affect returns on climate mitigation efforts. In other words, well trained workers are key to delivering emissions reductions and moving California closer to its climate targets.¹

Local skilled and trained workforce requirements and policies have significant environmental benefits since they improve an area’s jobs-housing balance, decreasing the amount of and length of job commutes and their associated greenhouse gas emissions. Recently, on May 7, 2021, the South Coast Air Quality Management District found that that the “[u]se of a local state-certified apprenticeship program or a skilled and trained workforce with a local hire component” can result in air pollutant reductions.²

Cities are increasingly adopting local skilled and trained workforce policies and requirements into general plans and municipal codes. For example, the City of Hayward 2040 General Plan requires the City to “promote local hiring . . . to help achieve a more positive jobs-housing balance, and reduce regional commuting, gas consumption, and greenhouse gas emissions.”³

In fact, the City of Hayward has gone as far as to adopt a Skilled Labor Force policy into its Downtown Specific Plan and municipal code, requiring developments in its Downtown area to requiring that the City “c]ontribute to the stabilization of regional construction markets by spurring applicants of housing and nonresidential

developments to require contractors to utilize apprentices from state-approved, joint labor-management training programs, . . .”⁴ In addition, the City of Hayward requires all projects 30,000 square feet or larger to “utilize apprentices from state-approved, joint labor-management training programs.”⁵

Locating jobs closer to residential areas can have significant environmental benefits. . . As the California Planning Roundtable noted in 2008:

People who live and work in the same jurisdiction would be more likely to take transit, walk, or bicycle to work than residents of less balanced communities and their vehicle trips would be shorter. Benefits would include potential reductions in both vehicle miles traveled and vehicle hours traveled.⁶

In addition, local hire mandates as well as skill training are critical facets of a strategy to reduce vehicle miles traveled. As planning experts Robert Cervero and Michael Duncan noted, simply placing jobs near housing stock is insufficient to achieve VMT reductions since the skill requirements of available local jobs must be matched to those held by local residents.⁷ Some municipalities have tied local hire and skilled and trained workforce policies to local development permits to address transportation issues. As Cervero and Duncan note:

In nearly built-out Berkeley, CA, the approach to balancing jobs and housing is to create local jobs rather than to develop new housing.” The city’s First Source program encourages businesses to hire local residents, especially for entry- and intermediate-level jobs, and sponsors vocational training to ensure residents are employment-ready. While the program is voluntary, some 300 businesses have used it to date, placing more than 3,000 city residents in local jobs since it was launched in 1986. When

⁷ Cervero, Robert and Duncan, Michael (2006) Which Reduces Vehicle Travel More: Jobs-Housing Balance or Retail-Housing Mixing? *Journal of the American Planning Association* 72 (4), 475-490, 482, *available at* <http://reconnectingamerica.org/assets/Uploads/UTCT-825.pdf>.

needed, these carrots are matched by sticks, since the city is not shy about negotiating corporate participation in First Source as a condition of approval for development permits.

The City should consider utilizing skilled and trained workforce policies and requirements to benefit the local area economically and mitigate greenhouse gas, air quality and transportation impacts.

Sincerely,

Mitchell M. Tsai

Subject: Local Hire Requirements and Considerations for Greenhouse Gas Modeling

Dear Mr. Tsai,

Soil Water Air Protection Enterprise ("SWAPE") is pleased to provide the following draft technical report explaining the significance of worker trips required for construction of land use development projects with respect to the estimation of greenhouse gas ("GHG") emissions. The report will also discuss the potential for local hire requirements to reduce the length of worker trips, and consequently, reduced or mitigate the potential GHG impacts.

Worker Trips and Greenhouse Gas Calculations

The California Emissions Estimator Model ("CalEEMod") is a "statewide land use emissions computer model designed to provide a uniform platform for government agencies, land use planners, and environmental professionals to quantify potential criteria pollutant and greenhouse gas (GHG) emissions associated with both construction and operations from a variety of land use projects."¹ CalEEMod quantifies construction-related emissions associated with land use projects resulting from off-road construction equipment; on-road mobile equipment associated with workers, vendors, and hauling; fugitive dust associated with grading, demolition, truck loading, and on-road vehicles traveling along paved and unpaved roads; and architectural coating activities; and paving.²

The number, length, and vehicle class of worker trips are utilized by CalEEMod to calculate emissions associated with the on-road vehicle trips required to transport workers to and from the Project site during construction.³

¹ "California Emissions Estimator Model." CAPCOA, 2017, available at: <http://www.aqmd.gov/caleemod/home>.

² "California Emissions Estimator Model." CAPCOA, 2017, available at: <http://www.aqmd.gov/caleemod/home>.

³ "CalEEMod User's Guide." CAPCOA, November 2017, available at: http://www.aqmd.gov/docs/default-source/caleemod/01_user-39-s-guide2016-3-2_15november2017.pdf?sfvrsn=4, p. 34.

Specifically, the number and length of vehicle trips is utilized to estimate the vehicle miles travelled (“VMT”) associated with construction. Then, utilizing vehicle-class specific EMFAC 2014 emission factors, CalEEMod calculates the vehicle exhaust, evaporative, and dust emissions resulting from construction-related VMT, including personal vehicles for worker commuting.⁴

Specifically, in order to calculate VMT, CalEEMod multiplies the average daily trip rate by the average overall trip length (see excerpt below):

$$\text{“VMT}_d = \Sigma(\text{Average Daily Trip Rate}_i * \text{Average Overall Trip Length}_i) _n$$

Where:

n = Number of land uses being modeled.”⁵

Furthermore, to calculate the on-road emissions associated with worker trips, CalEEMod utilizes the following equation (see excerpt below):

$$\text{“Emissions}_{\text{pollutant}} = \text{VMT} * \text{EF}_{\text{running,pollutant}}$$

Where:

$\text{Emissions}_{\text{pollutant}}$ = emissions from vehicle running for each pollutant

VMT = vehicle miles traveled

$\text{EF}_{\text{running,pollutant}}$ = emission factor for running emissions.”⁶

Thus, there is a direct relationship between trip length and VMT, as well as a direct relationship between VMT and vehicle running emissions. In other words, when the trip length is increased, the VMT and vehicle running emissions increase as a result. Thus, vehicle running emissions can be reduced by decreasing the average overall trip length, by way of a local hire requirement or otherwise.

Default Worker Trip Parameters and Potential Local Hire Requirements

As previously discussed, the number, length, and vehicle class of worker trips are utilized by CalEEMod to calculate emissions associated with the on-road vehicle trips required to transport workers to and from the Project site during construction.⁷ In order to understand how local hire requirements and associated worker trip length reductions impact GHG emissions calculations, it is important to consider the CalEEMod default worker trip parameters. CalEEMod provides recommended default values based on site-specific information, such as land use type, meteorological data, total lot acreage, project type and typical equipment associated with project type. If more specific project information is known, the user can change the default values and input project-specific values, but the California Environmental Quality Act (“CEQA”) requires that such changes be justified by substantial evidence.⁸ The default number of construction-related worker trips is calculated by multiplying the

⁸ CalEEMod User Guide, available at: <http://www.caleemod.com/>, p. 1, 9.

number of pieces of equipment for all phases by 1.25, with the exception of worker trips required for the building construction and architectural coating phases.⁹ Furthermore, the worker trip vehicle class is a 50/25/25 percent mix of light duty autos, light duty truck class 1 and light duty truck class 2, respectively.”¹⁰ Finally, the default worker trip length is consistent with the length of the operational home-to-work vehicle trips.¹¹ The operational home-to-work vehicle trip lengths are:

“[B]ased on the location and urbanization selected on the project characteristic screen. These values were supplied by the air districts or use a default average for the state. Each district (or county) also assigns trip lengths for urban and rural settings” (emphasis added).¹²

Thus, the default worker trip length is based on the location and urbanization level selected by the User when modeling emissions. The below table shows the CalEEMod default rural and urban worker trip lengths by air basin (see excerpt below and Attachment A).¹³

Worker Trip Length by Air Basin		
Air Basin	Rural (miles)	Urban (miles)
Great Basin Valleys	16.8	10.8
Lake County	16.8	10.8
Lake Tahoe	16.8	10.8
Mojave Desert	16.8	10.8
Mountain Counties	16.8	10.8
North Central Coast	17.1	12.3
North Coast	16.8	10.8
Northeast Plateau	16.8	10.8
Sacramento Valley	16.8	10.8
Salton Sea	14.6	11
San Diego	16.8	10.8
San Francisco Bay Area	10.8	10.8
San Joaquin Valley	16.8	10.8
South Central Coast	16.8	10.8
South Coast	19.8	14.7
Average	16.47	11.17
Minimum	10.80	10.80
Maximum	19.80	14.70
Range	9.00	3.90

¹⁰ “Appendix A Calculation Details for CalEEMod.” CAPCOA, October 2017, available at: http://www.aqmd.gov/docs/default-source/caleemod/02_appendix-a2016-3-2.pdf?sfvrsn=6, p. 15.

¹¹ “Appendix A Calculation Details for CalEEMod.” CAPCOA, October 2017, available at: http://www.aqmd.gov/docs/default-source/caleemod/02_appendix-a2016-3-2.pdf?sfvrsn=6, p. 14.

¹² “Appendix A Calculation Details for CalEEMod.” CAPCOA, October 2017, available at: http://www.aqmd.gov/docs/default-source/caleemod/02_appendix-a2016-3-2.pdf?sfvrsn=6, p. 21.

¹³ “Appendix D Default Data Tables.” CAPCOA, October 2017, available at: http://www.aqmd.gov/docs/default-source/caleemod/05_appendix-d2016-3-2.pdf?sfvrsn=4, p. D-84 – D-86.

As demonstrated above, default rural worker trip lengths for air basins in California vary from 10.8- to 19.8- miles, with an average of 16.47 miles. Furthermore, default urban worker trip lengths vary from 10.8- to 14.7- miles, with an average of 11.17 miles. Thus, while default worker trip lengths vary by location, default urban worker trip lengths tend to be shorter in length. Based on these trends evident in the CalEEMod default worker trip lengths, we can reasonably assume that the efficacy of a local hire requirement is especially dependent upon the urbanization of the project site, as well as the project location.

Practical Application of a Local Hire Requirement and Associated Impact

To provide an example of the potential impact of a local hire provision on construction-related GHG emissions, we estimated the significance of a local hire provision for the Village South Specific Plan (“Project”) located in the City of Claremont (“City”). The Project proposed to construct 1,000 residential units, 100,000-SF of retail space, 45,000-SF of office space, as well as a 50-room hotel, on the 24-acre site. The Project location is classified as Urban and lies within the Los Angeles-South Coast County. As a result, the Project has a default worker trip length of 14.7 miles.¹⁴ In an effort to evaluate the potential for a local hire provision to reduce the Project’s construction-related GHG emissions, we prepared an updated model, reducing all worker trip lengths to 10 miles (see Attachment B). Our analysis estimates that if a local hire provision with a 10-mile radius were to be implemented, the GHG emissions associated with Project construction would decrease by approximately 17% (see table below and Attachment C).

Local Hire Provision Net Change	
Without Local Hire Provision	
Total Construction GHG Emissions (MT CO ₂ e)	3,623
Amortized Construction GHG Emissions (MT CO ₂ e/year)	120.77
With Local Hire Provision	
Total Construction GHG Emissions (MT CO ₂ e)	3,024
Amortized Construction GHG Emissions (MT CO ₂ e/year)	100.80
% Decrease in Construction-related GHG Emissions	17%

As demonstrated above, by implementing a local hire provision requiring 10 mile worker trip lengths, the Project could reduce potential GHG emissions associated with construction worker trips. More broadly, any local hire requirement that results in a decreased worker trip length from the default value has the potential to result in a reduction of construction-related GHG emissions, though the significance of the reduction would vary based on the location and urbanization level of the project site.

This serves as an example of the potential impacts of local hire requirements on estimated project-level GHG emissions, though it does not indicate that local hire requirements would result in reduced construction-related GHG emission for all projects. As previously described, the significance of a local hire requirement depends on the worker trip length enforced and the default worker trip length for the project’s urbanization level and location.

¹⁴ “Appendix D Default Data Tables.” CAPCOA, October 2017, available at: http://www.aqmd.gov/docs/default-source/caleemod/05_appendix-d2016-3-2.pdf?sfvrsn=4, p. D-85.

Village South Specific Plan (Proposed)

Los Angeles-South Coast County, Annual

1.0 Project Characteristics

1.1 Land Usage

Land Uses	Size	Metric	Lot Acreage	Floor Surface Area	Population
General Office Building	45.00	1000sqft	1.03	45,000.00	0
High Turnover (Sit Down Restaurant)	36.00	1000sqft	0.83	36,000.00	0
Hotel	50.00	Room	1.67	72,600.00	0
Quality Restaurant	8.00	1000sqft	0.18	8,000.00	0
Apartments Low Rise	25.00	Dwelling Unit	1.56	25,000.00	72
Apartments Mid Rise	975.00	Dwelling Unit	25.66	975,000.00	2789
Regional Shopping Center	56.00	1000sqft	1.29	56,000.00	0

1.2 Other Project Characteristics

Urbanization	Urban	Wind Speed (m/s)	2.2	Precipitation Freq (Days)	33
Climate Zone	9			Operational Year	2028
Utility Company	Southern California Edison				
CO2 Intensity (lb/MW hr)	702.44	CH4 Intensity (lb/MW hr)	0.029	N2O Intensity (lb/MW hr)	0.006

1.3 User Entered Comments & Non-Default Data

Village South Specific Plan (Proposed) - Los Angeles-South Coast County, Annual

Project Characteristics - Consistent with the DEIR's model.

Land Use - See SWAPE comment regarding residential and retail land uses.

Construction Phase - See SWAPE comment regarding individual construction phase lengths.

Demolition - Consistent with the DEIR's model. See SWAPE comment regarding demolition.

Vehicle Trips - Saturday trips consistent with the DEIR's model. See SWAPE comment regarding weekday and Sunday trips.

Woodstoves - Woodstoves and wood-burning fireplaces consistent with the DEIR's model. See SWAPE comment regarding gas fireplaces.

Energy Use -

Construction Off-road Equipment Mitigation - See SWAPE comment on construction-related mitigation.

Area Mitigation - See SWAPE comment regarding operational mitigation measures.

Water Mitigation - See SWAPE comment regarding operational mitigation measures.

1.0 Project Characteristics

1.1 Land Usage

Land Uses	Size	Metric	Lot Acreage	Floor Surface Area	Population
General Office Building	45.00	1000sqft	1.03	45,000.00	0
High Turnover (Sit Down Restaurant)	36.00	1000sqft	0.83	36,000.00	0
Hotel	50.00	Room	1.67	72,600.00	0
Quality Restaurant	8.00	1000sqft	0.18	8,000.00	0
Apartments Low Rise	25.00	Dwelling Unit	1.56	25,000.00	72
Apartments Mid Rise	975.00	Dwelling Unit	25.66	975,000.00	2789
Regional Shopping Center	56.00	1000sqft	1.29	56,000.00	0

1.2 Other Project Characteristics

Urbanization	Urban	Wind Speed (m/s)	2.2	Precipitation Freq (Days)	33
Climate Zone	9			Operational Year	2028
Utility Company	Southern California Edison				
CO2 Intensity (lb/MW hr)	702.44	CH4 Intensity (lb/MW hr)	0.029	N2O Intensity (lb/MW hr)	0.006

1.3 User Entered Comments & Non-Default Data

Village South Specific Plan (Proposed) - Los Angeles-South Coast County, Summer

Project Characteristics - Consistent with the DEIR's model.

Land Use - See SWAPE comment regarding residential and retail land uses.

Construction Phase - See SWAPE comment regarding individual construction phase lengths.

Demolition - Consistent with the DEIR's model. See SWAPE comment regarding demolition.

Vehicle Trips - Saturday trips consistent with the DEIR's model. See SWAPE comment regarding weekday and Sunday trips.

Woodstoves - Woodstoves and wood-burning fireplaces consistent with the DEIR's model. See SWAPE comment regarding gas fireplaces.

Energy Use -

Construction Off-road Equipment Mitigation - See SWAPE comment on construction-related mitigation.

Area Mitigation - See SWAPE comment regarding operational mitigation measures.

Water Mitigation - See SWAPE comment regarding operational mitigation measures.

1.3 User Entered Comments & Non-Default Data

Village South Specific Plan (Proposed) - Los Angeles-South Coast County, Winter

Project Characteristics - Consistent with the DEIR's model.

Land Use - See SWAPE comment regarding residential and retail land uses.

Construction Phase - See SWAPE comment regarding individual construction phase lengths.

Demolition - Consistent with the DEIR's model. See SWAPE comment regarding demolition.

Vehicle Trips - Saturday trips consistent with the DEIR's model. See SWAPE comment regarding weekday and Sunday trips.

Woodstoves - Woodstoves and wood-burning fireplaces consistent with the DEIR's model. See SWAPE comment regarding gas fireplaces.

Energy Use -

Construction Off-road Equipment Mitigation - See SWAPE comment on construction-related mitigation.

Area Mitigation - See SWAPE comment regarding operational mitigation measures.

Water Mitigation - See SWAPE comment regarding operational mitigation measures.

1.2 Other Project Characteristics

Urbanization	Urban	Wind Speed (m/s)	2.2	Precipitation Freq (Days)	33
Climate Zone	9			Operational Year	2028
Utility Company	Southern California Edison				
CO2 Intensity (lb/MW hr)	702.44	CH4 Intensity (lb/MW hr)	0.029	N2O Intensity (lb/MW hr)	0.006

1.3 User Entered Comments & Non-Default Data

Village South Specific Plan (Proposed) - Los Angeles-South Coast County, Annual

Project Characteristics - Consistent with the DEIR's model.

Land Use - See SWAPE comment regarding residential and retail land uses.

Construction Phase - See SWAPE comment regarding individual construction phase lengths.

Demolition - Consistent with the DEIR's model. See SWAPE comment regarding demolition.

Vehicle Trips - Saturday trips consistent with the DEIR's model. See SWAPE comment regarding weekday and Sunday trips.

Woodstoves - Woodstoves and wood-burning fireplaces consistent with the DEIR's model. See SWAPE comment regarding gas fireplaces.

Energy Use -

Construction Off-road Equipment Mitigation - See SWAPE comment on construction-related mitigation.

Area Mitigation - See SWAPE comment regarding operational mitigation measures.

Water Mitigation - See SWAPE comment regarding operational mitigation measures.

Trips and VMT - Local hire provision

1.0 Project Characteristics

1.1 Land Usage

Land Uses	Size	Metric	Lot Acreage	Floor Surface Area	Population
General Office Building	45.00	1000sqft	1.03	45,000.00	0
High Turnover (Sit Down Restaurant)	36.00	1000sqft	0.83	36,000.00	0
Hotel	50.00	Room	1.67	72,600.00	0
Quality Restaurant	8.00	1000sqft	0.18	8,000.00	0
Apartments Low Rise	25.00	Dwelling Unit	1.56	25,000.00	72
Apartments Mid Rise	975.00	Dwelling Unit	25.66	975,000.00	2789
Regional Shopping Center	56.00	1000sqft	1.29	56,000.00	0

1.2 Other Project Characteristics

Urbanization	Urban	Wind Speed (m/s)	2.2	Precipitation Freq (Days)	33
Climate Zone	9			Operational Year	2028
Utility Company	Southern California Edison				
CO2 Intensity (lb/MW hr)	702.44	CH4 Intensity (lb/MW hr)	0.029	N2O Intensity (lb/MW hr)	0.006

1.3 User Entered Comments & Non-Default Data

Village South Specific Plan (Proposed) - Los Angeles-South Coast County, Summer

Project Characteristics - Consistent with the DEIR's model.

Land Use - See SWAPE comment regarding residential and retail land uses.

Construction Phase - See SWAPE comment regarding individual construction phase lengths.

Demolition - Consistent with the DEIR's model. See SWAPE comment regarding demolition.

Vehicle Trips - Saturday trips consistent with the DEIR's model. See SWAPE comment regarding weekday and Sunday trips.

Woodstoves - Woodstoves and wood-burning fireplaces consistent with the DEIR's model. See SWAPE comment regarding gas fireplaces.

Energy Use -

Construction Off-road Equipment Mitigation - See SWAPE comment on construction-related mitigation.

Area Mitigation - See SWAPE comment regarding operational mitigation measures.

Water Mitigation - See SWAPE comment regarding operational mitigation measures.

Trips and VMT - Local hire provision

1.2 Other Project Characteristics

Urbanization	Urban	Wind Speed (m/s)	2.2	Precipitation Freq (Days)	33
Climate Zone	9			Operational Year	2028
Utility Company	Southern California Edison				
CO2 Intensity (lb/MW hr)	702.44	CH4 Intensity (lb/MW hr)	0.029	N2O Intensity (lb/MW hr)	0.006

1.3 User Entered Comments & Non-Default Data

Village South Specific Plan (Proposed) - Los Angeles-South Coast County, Winter

Project Characteristics - Consistent with the DEIR's model.

Land Use - See SWAPE comment regarding residential and retail land uses.

Construction Phase - See SWAPE comment regarding individual construction phase lengths.

Demolition - Consistent with the DEIR's model. See SWAPE comment regarding demolition.

Vehicle Trips - Saturday trips consistent with the DEIR's model. See SWAPE comment regarding weekday and Sunday trips.

Woodstoves - Woodstoves and wood-burning fireplaces consistent with the DEIR's model. See SWAPE comment regarding gas fireplaces.

Energy Use -

Construction Off-road Equipment Mitigation - See SWAPE comment on construction-related mitigation.

Area Mitigation - See SWAPE comment regarding operational mitigation measures.

Water Mitigation - See SWAPE comment regarding operational mitigation measures.

Trips and VMT - Local hire provision

Chemical Fate and Transport & Air Dispersion Modeling

Risk Assessment & Remediation Specialist

Education

Ph.D. Soil Chemistry, University of Washington, 1999. Dissertation on volatile organic compound filtration.

M.S. Environmental Science, U.C. Berkeley, 1995. Thesis on organic waste economics.

B.A. Environmental Studies, U.C. Santa Barbara, 1991. Thesis on wastewater treatment.

Professional Experience

Dr. Rosenfeld has over 25 years' experience conducting environmental investigations and risk assessments for evaluating impacts to human health, property, and ecological receptors. His expertise focuses on the fate and transport of environmental contaminants, human health risk, exposure assessment, and ecological restoration. Dr. Rosenfeld has evaluated and modeled emissions from unconventional oil drilling operations, oil spills, landfills, boilers and incinerators, process stacks, storage tanks, confined animal feeding operations, and many other industrial and agricultural sources. His project experience ranges from monitoring and modeling of pollution sources to evaluating impacts of pollution on workers at industrial facilities and residents in surrounding communities.

Dr. Rosenfeld has investigated and designed remediation programs and risk assessments for contaminated sites containing lead, heavy metals, mold, bacteria, particulate matter, petroleum hydrocarbons, chlorinated solvents, pesticides, radioactive waste, dioxins and furans, semi- and volatile organic compounds, PCBs, PAHs, perchlorate, asbestos, per- and poly-fluoroalkyl substances (PFOA/PFOS), unusual polymers, fuel oxygenates (MTBE), among other pollutants. Dr. Rosenfeld also has experience evaluating greenhouse gas emissions from various projects and is an expert on the assessment of odors from industrial and agricultural sites, as well as the evaluation of odor nuisance impacts and technologies for abatement of odorous emissions. As a principal scientist at SWAPE, Dr. Rosenfeld directs air dispersion modeling and exposure assessments. He has served as an expert witness and testified about pollution sources causing nuisance and/or personal injury at dozens of sites and has testified as an expert witness on more than ten cases involving exposure to air contaminants from industrial sources.

Professional History:

Soil Water Air Protection Enterprise (SWAPE); 2003 to present; Principal and Founding Partner
UCLA School of Public Health; 2007 to 2011; Lecturer (Assistant Researcher)
UCLA School of Public Health; 2003 to 2006; Adjunct Professor
UCLA Environmental Science and Engineering Program; 2002-2004; Doctoral Intern Coordinator
UCLA Institute of the Environment, 2001-2002; Research Associate
Komex H₂O Science, 2001 to 2003; Senior Remediation Scientist
National Groundwater Association, 2002-2004; Lecturer
San Diego State University, 1999-2001; Adjunct Professor
Anteon Corp., San Diego, 2000-2001; Remediation Project Manager
Ogden (now Amec), San Diego, 2000-2000; Remediation Project Manager
Bechtel, San Diego, California, 1999 – 2000; Risk Assessor
King County, Seattle, 1996 – 1999; Scientist
James River Corp., Washington, 1995-96; Scientist
Big Creek Lumber, Davenport, California, 1995; Scientist
Plumas Corp., California and USFS, Tahoe 1993-1995; Scientist
Peace Corps and World Wildlife Fund, St. Kitts, West Indies, 1991-1993; Scientist

Rosenfeld, P.E., C.L. Henry. (1998). Characterization, Quantification, and Control of Odor Emissions from Biosolids Application To Forest Soil. *Biofest*. Lecture conducted from Lake Chelan, Washington.

Rosenfeld, P.E., C.L. Henry, R. Harrison. (1998). Oat and Grass Seed Germination and Nitrogen and Sulfur Emissions Following Biosolids Incorporation With High-Carbon Wood-Ash. Water Environment Federation 12th Annual Residuals and Biosolids Management Conference Proceedings. Lecture conducted from Bellevue Washington.

Rosenfeld, P.E., C.L. Henry, R. B. Harrison, and R. Dills. (1997). Comparison of Odor Emissions From Three Different Biosolids Applied to Forest Soil. *Soil Science Society of America*. Lecture conducted from Anaheim California.

Teaching Experience:

UCLA Department of Environmental Health (Summer 2003 through 20010) Taught Environmental Health Science 100 to students, including undergrad, medical doctors, public health professionals and nurses. Course focused on the health effects of environmental contaminants.

National Ground Water Association, Successful Remediation Technologies. Custom Course in Sante Fe, New Mexico. May 21, 2002. Focused on fate and transport of fuel contaminants associated with underground storage tanks.

National Ground Water Association; Successful Remediation Technologies Course in Chicago Illinois. April 1, 2002. Focused on fate and transport of contaminants associated with Superfund and RCRA sites.

California Integrated Waste Management Board, April and May, 2001. Alternative Landfill Caps Seminar in San Diego, Ventura, and San Francisco. Focused on both prescriptive and innovative landfill cover design.

UCLA Department of Environmental Engineering, February 5, 2002. Seminar on Successful Remediation Technologies focusing on Groundwater Remediation.

University Of Washington, Soil Science Program, Teaching Assistant for several courses including: Soil Chemistry, Organic Soil Amendments, and Soil Stability.

U.C. Berkeley, Environmental Science Program Teaching Assistant for Environmental Science 10.

Academic Grants Awarded:

California Integrated Waste Management Board. \$41,000 grant awarded to UCLA Institute of the Environment. Goal: To investigate effect of high carbon wood ash on volatile organic emissions from compost. 2001.

Synagro Technologies, Corona California: \$10,000 grant awarded to San Diego State University. Goal: investigate effect of biosolids for restoration and remediation of degraded coastal sage soils. 2000.

King County, Department of Research and Technology, Washington State. \$100,000 grant awarded to University of Washington: Goal: To investigate odor emissions from biosolids application and the effect of polymers and ash on VOC emissions. 1998.

Northwest Biosolids Management Association, Washington State. \$20,000 grant awarded to investigate effect of polymers and ash on VOC emissions from biosolids. 1997.

James River Corporation, Oregon: \$10,000 grant was awarded to investigate the success of genetically engineered Poplar trees with resistance to round-up. 1996.

United State Forest Service, Tahoe National Forest: \$15,000 grant was awarded to investigating fire ecology of the Tahoe National Forest. 1995.

Kellogg Foundation, Washington D.C. \$500 grant was awarded to construct a large anaerobic digester on St. Kitts in West Indies. 1993

Deposition and/or Trial Testimony:

In the United States District Court For The District of New Jersey

Duarte et al, *Plaintiffs*, vs. United States Metals Refining Company et. al. *Defendant*.

Case No.: 2:17-cv-01624-ES-SCM

Rosenfeld Deposition. 6-7-2019

In the United States District Court of Southern District of Texas Galveston Division

M/T Carla Maersk, *Plaintiffs*, vs. Conti 168., Schiffahrts-GMBH & Co. Bulker KG MS “Conti Perdido”
Defendant.

Case No.: 3:15-CV-00106 consolidated with 3:15-CV-00237

Rosenfeld Deposition. 5-9-2019

In The Superior Court of the State of California In And For The County Of Los Angeles – Santa Monica

Carole-Taddeo-Bates et al., vs. Ifran Khan et al., Defendants

Case No.: No. BC615636

Rosenfeld Deposition, 1-26-2019

In The Superior Court of the State of California In And For The County Of Los Angeles – Santa Monica

The San Gabriel Valley Council of Governments et al. vs El Adobe Apts. Inc. et al., Defendants

Case No.: No. BC646857

Rosenfeld Deposition, 10-6-2018; Trial 3-7-19

In United States District Court For The District of Colorado

Bells et al. Plaintiff vs. The 3M Company et al., Defendants

Case: No 1:16-cv-02531-RBJ

Rosenfeld Deposition, 3-15-2018 and 4-3-2018

In The District Court Of Regan County, Texas, 112th Judicial District

Phillip Bales et al., Plaintiff vs. Dow Agrosiences, LLC, et al., Defendants

Cause No 1923

Rosenfeld Deposition, 11-17-2017

In The Superior Court of the State of California In And For The County Of Contra Costa

Simons et al., Plaintiffs vs. Chevron Corporation, et al., Defendants

Cause No C12-01481

Rosenfeld Deposition, 11-20-2017

In The Circuit Court Of The Twentieth Judicial Circuit, St Clair County, Illinois

Martha Custer et al., Plaintiff vs. Cerro Flow Products, Inc., Defendants

Case No.: No. 0i9-L-2295

Rosenfeld Deposition, 8-23-2017

In The Superior Court of the State of California, For The County of Los Angeles

Warrn Gilbert and Penny Gilber, Plaintiff vs. BMW of North America LLC

Case No.: LC102019 (c/w BC582154)

Rosenfeld Deposition, 8-16-2017, Trail 8-28-2018

In the Northern District Court of Mississippi, Greenville Division

Brenda J. Cooper, et al., *Plaintiffs*, vs. Meritor Inc., et al., *Defendants*

Case Number: 4:16-cv-52-DMB-JVM

Rosenfeld Deposition: July 2017

In The Superior Court of the State of Washington, County of Snohomish
Michael Davis and Julie Davis et al., Plaintiff vs. Cedar Grove Composting Inc., Defendants
Case No.: No. 13-2-03987-5
Rosenfeld Deposition, February 2017
Trial, March 2017

In The Superior Court of the State of California, County of Alameda
Charles Spain., Plaintiff vs. Thermo Fisher Scientific, et al., Defendants
Case No.: RG14711115
Rosenfeld Deposition, September 2015

In The Iowa District Court In And For Poweshiek County
Russell D. Winburn, et al., Plaintiffs vs. Doug Hoksbergen, et al., Defendants
Case No.: LALA002187
Rosenfeld Deposition, August 2015

In The Iowa District Court For Wapello County
Jerry Dovico, et al., Plaintiffs vs. Valley View Sine LLC, et al., Defendants
Law No.: LALA105144 - Division A
Rosenfeld Deposition, August 2015

In The Iowa District Court For Wapello County
Doug Pauls, et al., et al., Plaintiffs vs. Richard Warren, et al., Defendants
Law No.: LALA105144 - Division A
Rosenfeld Deposition, August 2015

In The Circuit Court of Ohio County, West Virginia
Robert Andrews, et al. v. Antero, et al.
Civil Action NO. 14-C-30000
Rosenfeld Deposition, June 2015

In The Third Judicial District County of Dona Ana, New Mexico
Betty Gonzalez, et al. Plaintiffs vs. Del Oro Dairy, Del Oro Real Estate LLC, Jerry Settles and Deward
DeRuyter, Defendants
Rosenfeld Deposition: July 2015

In The Iowa District Court For Muscatine County
Laurie Freeman et. al. Plaintiffs vs. Grain Processing Corporation, Defendant
Case No 4980
Rosenfeld Deposition: May 2015

In the Circuit Court of the 17th Judicial Circuit, in and For Broward County, Florida
Walter Hinton, et. al. Plaintiff, vs. City of Fort Lauderdale, Florida, a Municipality, Defendant.
Case Number CACE07030358 (26)
Rosenfeld Deposition: December 2014

In the United States District Court Western District of Oklahoma
Tommy McCarty, et al., Plaintiffs, v. Oklahoma City Landfill, LLC d/b/a Southeast Oklahoma City
Landfill, et al. Defendants.
Case No. 5:12-cv-01152-C
Rosenfeld Deposition: July 2014

In the County Court of Dallas County Texas

Lisa Parr et al, *Plaintiff*, vs. Aruba et al, *Defendant*.

Case Number cc-11-01650-E

Rosenfeld Deposition: March and September 2013

Rosenfeld Trial: April 2014

In the Court of Common Pleas of Tuscarawas County Ohio

John Michael Abicht, et al., *Plaintiffs*, vs. Republic Services, Inc., et al., *Defendants*

Case Number: 2008 CT 10 0741 (Cons. w/ 2009 CV 10 0987)

Rosenfeld Deposition: October 2012

In the United States District Court of Southern District of Texas Galveston Division

Kyle Cannon, Eugene Donovan, Genaro Ramirez, Carol Sassler, and Harvey Walton, each Individually and on behalf of those similarly situated, *Plaintiffs*, vs. BP Products North America, Inc., *Defendant*.

Case 3:10-cv-00622

Rosenfeld Deposition: February 2012

Rosenfeld Trial: April 2013

In the Circuit Court of Baltimore County Maryland

Philip E. Cvach, II et al., *Plaintiffs* vs. Two Farms, Inc. d/b/a Royal Farms, Defendants

Case Number: 03-C-12-012487 OT

Rosenfeld Deposition: September 2013

**Geologic and Hydrogeologic Characterization
Industrial Stormwater Compliance
Investigation and Remediation Strategies
Litigation Support and Testifying Expert
CEQA Review**

Education:

M.S. Degree, Geology, California State University Los Angeles, Los Angeles, CA, 1984.

B.A. Degree, Geology, Humboldt State University, Arcata, CA, 1982.

Professional Certifications:

California Professional Geologist

California Certified Hydrogeologist

Qualified SWPPP Developer and Practitioner

Professional Experience:

Matt has 25 years of experience in environmental policy, assessment and remediation. He spent nine years with the U.S. EPA in the RCRA and Superfund programs and served as EPA's Senior Science Policy Advisor in the Western Regional Office where he identified emerging threats to groundwater from perchlorate and MTBE. While with EPA, Matt also served as a Senior Hydrogeologist in the oversight of the assessment of seven major military facilities undergoing base closure. He led numerous enforcement actions under provisions of the Resource Conservation and Recovery Act (RCRA) while also working with permit holders to improve hydrogeologic characterization and water quality monitoring.

Matt has worked closely with U.S. EPA legal counsel and the technical staff of several states in the application and enforcement of RCRA, Safe Drinking Water Act and Clean Water Act regulations. Matt has trained the technical staff in the States of California, Hawaii, Nevada, Arizona and the Territory of Guam in the conduct of investigations, groundwater fundamentals, and sampling techniques.

Positions Matt has held include:

- Founding Partner, Soil/Water/Air Protection Enterprise (SWAPE) (2003 – present);
- Geology Instructor, Golden West College, 2010 – 2014;
- Senior Environmental Analyst, Komex H2O Science, Inc. (2000 -- 2003);

- Executive Director, Orange Coast Watch (2001 – 2004);
- Senior Science Policy Advisor and Hydrogeologist, U.S. Environmental Protection Agency (1989–1998);
- Hydrogeologist, National Park Service, Water Resources Division (1998 – 2000);
- Adjunct Faculty Member, San Francisco State University, Department of Geosciences (1993 – 1998);
- Instructor, College of Marin, Department of Science (1990 – 1995);
- Geologist, U.S. Forest Service (1986 – 1998); and
- Geologist, Dames & Moore (1984 – 1986).

Senior Regulatory and Litigation Support Analyst:

With SWAPE, Matt’s responsibilities have included:

- Lead analyst and testifying expert in the review of over 100 environmental impact reports since 2003 under CEQA that identify significant issues with regard to hazardous waste, water resources, water quality, air quality, Valley Fever, greenhouse gas emissions, and geologic hazards. Make recommendations for additional mitigation measures to lead agencies at the local and county level to include additional characterization of health risks and implementation of protective measures to reduce worker exposure to hazards from toxins and Valley Fever.
- Stormwater analysis, sampling and best management practice evaluation at industrial facilities.
- Manager of a project to provide technical assistance to a community adjacent to a former Naval shipyard under a grant from the U.S. EPA.
- Technical assistance and litigation support for vapor intrusion concerns.
- Lead analyst and testifying expert in the review of environmental issues in license applications for large solar power plants before the California Energy Commission.
- Manager of a project to evaluate numerous formerly used military sites in the western U.S.
- Manager of a comprehensive evaluation of potential sources of perchlorate contamination in Southern California drinking water wells.
- Manager and designated expert for litigation support under provisions of Proposition 65 in the review of releases of gasoline to sources drinking water at major refineries and hundreds of gas stations throughout California.
- Expert witness on two cases involving MTBE litigation.
- Expert witness and litigation support on the impact of air toxins and hazards at a school.
- Expert witness in litigation at a former plywood plant.

With Komex H2O Science Inc., Matt’s duties included the following:

- Senior author of a report on the extent of perchlorate contamination that was used in testimony by the former U.S. EPA Administrator and General Counsel.
- Senior researcher in the development of a comprehensive, electronically interactive chronology of MTBE use, research, and regulation.
- Senior researcher in the development of a comprehensive, electronically interactive chronology of perchlorate use, research, and regulation.
- Senior researcher in a study that estimates nationwide costs for MTBE remediation and drinking water treatment, results of which were published in newspapers nationwide and in testimony against provisions of an energy bill that would limit liability for oil companies.
- Research to support litigation to restore drinking water supplies that have been contaminated by MTBE in California and New York.

- Expert witness testimony in a case of oil production-related contamination in Mississippi.
- Lead author for a multi-volume remedial investigation report for an operating school in Los Angeles that met strict regulatory requirements and rigorous deadlines.

- Development of strategic approaches for cleanup of contaminated sites in consultation with clients and regulators.

Executive Director:

As Executive Director with Orange Coast Watch, Matt led efforts to restore water quality at Orange County beaches from multiple sources of contamination including urban runoff and the discharge of wastewater. In reporting to a Board of Directors that included representatives from leading Orange County universities and businesses, Matt prepared issue papers in the areas of treatment and disinfection of wastewater and control of the discharge of grease to sewer systems. Matt actively participated in the development of countywide water quality permits for the control of urban runoff and permits for the discharge of wastewater. Matt worked with other nonprofits to protect and restore water quality, including Surfrider, Natural Resources Defense Council and Orange County CoastKeeper as well as with business institutions including the Orange County Business Council.

Hydrogeology:

As a Senior Hydrogeologist with the U.S. Environmental Protection Agency, Matt led investigations to characterize and cleanup closing military bases, including Mare Island Naval Shipyard, Hunters Point Naval Shipyard, Treasure Island Naval Station, Alameda Naval Station, Moffett Field, Mather Army Airfield, and Sacramento Army Depot. Specific activities were as follows:

- Led efforts to model groundwater flow and contaminant transport, ensured adequacy of monitoring networks, and assessed cleanup alternatives for contaminated sediment, soil, and groundwater.
- Initiated a regional program for evaluation of groundwater sampling practices and laboratory analysis at military bases.
- Identified emerging issues, wrote technical guidance, and assisted in policy and regulation development through work on four national U.S. EPA workgroups, including the Superfund Groundwater Technical Forum and the Federal Facilities Forum.

At the request of the State of Hawaii, Matt developed a methodology to determine the vulnerability of groundwater to contamination on the islands of Maui and Oahu. He used analytical models and a GIS to show zones of vulnerability, and the results were adopted and published by the State of Hawaii and County of Maui.

As a hydrogeologist with the EPA Groundwater Protection Section, Matt worked with provisions of the Safe Drinking Water Act and NEPA to prevent drinking water contamination. Specific activities included the following:

- Received an EPA Bronze Medal for his contribution to the development of national guidance for the protection of drinking water.
- Managed the Sole Source Aquifer Program and protected the drinking water of two communities through designation under the Safe Drinking Water Act. He prepared geologic reports, conducted public hearings, and responded to public comments from residents who were very concerned about the impact of designation.

- Reviewed a number of Environmental Impact Statements for planned major developments, including large hazardous and solid waste disposal facilities, mine reclamation, and water transfer.

Matt served as a hydrogeologist with the RCRA Hazardous Waste program. Duties were as follows:

- Supervised the hydrogeologic investigation of hazardous waste sites to determine compliance with Subtitle C requirements.
- Reviewed and wrote "part B" permits for the disposal of hazardous waste.
- Conducted RCRA Corrective Action investigations of waste sites and led inspections that formed the basis for significant enforcement actions that were developed in close coordination with U.S. EPA legal counsel.
- Wrote contract specifications and supervised contractor's investigations of waste sites.

With the National Park Service, Matt directed service-wide investigations of contaminant sources to prevent degradation of water quality, including the following tasks:

- Applied pertinent laws and regulations including CERCLA, RCRA, NEPA, NRDA, and the Clean Water Act to control military, mining, and landfill contaminants.
- Conducted watershed-scale investigations of contaminants at parks, including Yellowstone and Olympic National Park.
- Identified high-levels of perchlorate in soil adjacent to a national park in New Mexico and advised park superintendent on appropriate response actions under CERCLA.
- Served as a Park Service representative on the Interagency Perchlorate Steering Committee, a national workgroup.
- Developed a program to conduct environmental compliance audits of all National Parks while serving on a national workgroup.
- Co-authored two papers on the potential for water contamination from the operation of personal watercraft and snowmobiles, these papers serving as the basis for the development of nation-wide policy on the use of these vehicles in National Parks.
- Contributed to the Federal Multi-Agency Source Water Agreement under the Clean Water Action Plan.

Policy:

Served senior management as the Senior Science Policy Advisor with the U.S. Environmental Protection Agency, Region 9. Activities included the following:

- Advised the Regional Administrator and senior management on emerging issues such as the potential for the gasoline additive MTBE and ammonium perchlorate to contaminate drinking water supplies.
- Shaped EPA's national response to these threats by serving on workgroups and by contributing to guidance, including the Office of Research and Development publication, *Oxygenates in Water: Critical Information and Research Needs*.
- Improved the technical training of EPA's scientific and engineering staff.
- Earned an EPA Bronze Medal for representing the region's 300 scientists and engineers in negotiations with the Administrator and senior management to better integrate scientific principles into the policy-making process.
- Established national protocol for the peer review of scientific documents.

Geology:

With the U.S. Forest Service, Matt led investigations to determine hillslope stability of areas proposed for timber harvest in the central Oregon Coast Range. Specific activities were as follows:

- Mapped geology in the field, and used aerial photographic interpretation and mathematical models to determine slope stability.
- Coordinated his research with community members who were concerned with natural resource protection.
- Characterized the geology of an aquifer that serves as the sole source of drinking water for the city of Medford, Oregon.

As a consultant with Dames and Moore, Matt led geologic investigations of two contaminated sites (later listed on the Superfund NPL) in the Portland, Oregon, area and a large hazardous waste site in eastern Oregon. Duties included the following:

- Supervised year-long effort for soil and groundwater sampling.
- Conducted aquifer tests.
- Investigated active faults beneath sites proposed for hazardous waste disposal.

Teaching:

From 1990 to 1998, Matt taught at least one course per semester at the community college and university levels:

- At San Francisco State University, held an adjunct faculty position and taught courses in environmental geology, oceanography (lab and lecture), hydrogeology, and groundwater contamination.
- Served as a committee member for graduate and undergraduate students.
- Taught courses in environmental geology and oceanography at the College of Marin.

Matt taught physical geology (lecture and lab and introductory geology at Golden West College in Huntington Beach, California from 2010 to 2014.

Invited Testimony, Reports, Papers and Presentations:

Hagemann, M.F., 2008. Disclosure of Hazardous Waste Issues under CEQA. Presentation to the Public Environmental Law Conference, Eugene, Oregon.

Hagemann, M.F., 2008. Disclosure of Hazardous Waste Issues under CEQA. Invited presentation to U.S. EPA Region 9, San Francisco, California.

Hagemann, M.F., 2005. Use of Electronic Databases in Environmental Regulation, Policy Making and Public Participation. Brownfields 2005, Denver, Colorado.

Hagemann, M.F., 2004. Perchlorate Contamination of the Colorado River and Impacts to Drinking Water in Nevada and the Southwestern U.S. Presentation to a meeting of the American Groundwater Trust, Las Vegas, NV (served on conference organizing committee).

Hagemann, M.F., 2004. Invited testimony to a California Senate committee hearing on air toxins at schools in Southern California, Los Angeles.

Brown, A., Farrow, J., Gray, A. and **Hagemann, M.**, 2004. An Estimate of Costs to Address MTBE Releases from Underground Storage Tanks and the Resulting Impact to Drinking Water Wells. Presentation to the Ground Water and Environmental Law Conference, National Groundwater Association.

Hagemann, M.F., 2004. Perchlorate Contamination of the Colorado River and Impacts to Drinking Water in Arizona and the Southwestern U.S. Presentation to a meeting of the American Groundwater Trust, Phoenix, AZ (served on conference organizing committee).

Hagemann, M.F., 2003. Perchlorate Contamination of the Colorado River and Impacts to Drinking Water in the Southwestern U.S. Invited presentation to a special committee meeting of the National Academy of Sciences, Irvine, CA.

Hagemann, M.F., 2003. Perchlorate Contamination of the Colorado River. Invited presentation to a tribal EPA meeting, Pechanga, CA.

Hagemann, M.F., 2003. Perchlorate Contamination of the Colorado River. Invited presentation to a meeting of tribal representatives, Parker, AZ.

Hagemann, M.F., 2003. Impact of Perchlorate on the Colorado River and Associated Drinking Water Supplies. Invited presentation to the Inter-Tribal Meeting, Torres Martinez Tribe.

Hagemann, M.F., 2003. The Emergence of Perchlorate as a Widespread Drinking Water Contaminant. Invited presentation to the U.S. EPA Region 9.

Hagemann, M.F., 2003. A Deductive Approach to the Assessment of Perchlorate Contamination. Invited presentation to the California Assembly Natural Resources Committee.

Hagemann, M.F., 2003. Perchlorate: A Cold War Legacy in Drinking Water. Presentation to a meeting of the National Groundwater Association.

Hagemann, M.F., 2002. From Tank to Tap: A Chronology of MTBE in Groundwater. Presentation to a meeting of the National Groundwater Association.

Hagemann, M.F., 2002. A Chronology of MTBE in Groundwater and an Estimate of Costs to Address Impacts to Groundwater. Presentation to the annual meeting of the Society of Environmental Journalists.

Hagemann, M.F., 2002. An Estimate of the Cost to Address MTBE Contamination in Groundwater (and Who Will Pay). Presentation to a meeting of the National Groundwater Association.

Hagemann, M.F., 2002. An Estimate of Costs to Address MTBE Releases from Underground Storage Tanks and the Resulting Impact to Drinking Water Wells. Presentation to a meeting of the U.S. EPA and State Underground Storage Tank Program managers.

Hagemann, M.F., 2001. From Tank to Tap: A Chronology of MTBE in Groundwater. Unpublished report.

Hagemann, M.F., 2001. Estimated Cleanup Cost for MTBE in Groundwater Used as Drinking Water. Unpublished report.

Hagemann, M.F., 2001. Estimated Costs to Address MTBE Releases from Leaking Underground Storage Tanks. Unpublished report.

Other Experience:

Selected as subject matter expert for the California Professional Geologist licensing examination, 2009-2011.
